

Dear Senator:

The medical liability crisis is threatening my ability to get to access to the health care services that I need. My surgeon is facing out of control premiums because the system allows for unreasonable abuses of the legal system. I have come to depend on my surgeon and I don't want to see their practice compromised.

As my Senator, I am counting on you to support strong medical liability reform. These reforms will go along way to ensure that my doctor isn't driven from practice.

Sincerely,
