

#	<u>Updates</u>	<u>Added Codes</u>	<u>Removed Codes</u>
20	Added “parenteral” before antibiotics throughout the measure. Updated Numerator Quality-Data Coding Options for Reporting Satisfactorily section to read: “Table 1A: The antimicrobial drugs listed below are considered prophylactic parenteral antibiotics for the purposes of this measure. 4047F-8P should be reported when antibiotics from this table were not ordered.”	45171, 45172	27870, 28296, 28299, 28300, 28306, 28307, 28308, 28309, 28310, 28320, 28322, 28740, 28750, 28755, 28760, 45170, 47133, 48550, 50300,
21			27870, 28296, 28299, 28300, 28306, 28307, 28308, 28309, 28310, 28320, 28322, 28740, 28750, 28755, 28760, 48550, 50300
22	Added to the Denominator statement “aged 18 years and older”. Added “parenteral” before antibiotics throughout the measure	45171, 45172	27870, 28296, 28299, 28300, 28306, 28307, 28308, 28309, 28310, 28320, 28322, 28740, 28750, 28755, 28760, 45170, 48550, 50300
23		45171, 45172	45170
30	<p>Updated Measure Title, “Perioperative Care: Timely Administration of Prophylactic Parenteral Antibiotics”. Updated Measure Description to read “Percentage of surgical patients aged 18 years and older who receive an anesthetic when undergoing procedures with the indications for prophylactic parenteral antibiotics for whom administration of the prophylactic parenteral antibiotic ordered has been initiated within one hour (if fluoroquinolone or vancomycin, two hours) prior to the surgical incision (or start of procedure when no incision is required)”. Added “parenteral” before antibiotics throughout the measure. Deleted from Numerator Statement, “with an order for a prophylactic antibiotic for” and replaced with “parenteral antibiotic ordered”. Updated Numerator Note to read “Ordered” includes instances in which the prophylactic parenteral antibiotic is ordered by the clinician performing the surgical procedure OR is ordered by the clinician providing the anesthesia services.</p> <p>Updated Denominator Statement to read “ *All surgical patients aged 18 years and older who receive an anesthetic when undergoing procedures** with the indications for prophylactic parenteral antibiotics.” Added Asterisks stating **Anesthesia services included in denominator are associated with some surgical procedures for which prophylactic parenteral antibiotics may not be indicated. Clinicians should report 4047F-8P for those instances in which anesthesia services are provided but not associated with surgical procedures for which prophylactic parenteral antibiotics are indicated. Added asterisk to Measure Instructions that reads, “The anesthesia services included in the denominator are associated with some surgical procedures for which prophylactic parenteral antibiotics may not be indicated. As a result, clinicians should report 4047F-8P for those instances in which anesthesia services are provided but not associated with surgical procedures for which prophylactic antibiotics are indicated.”</p>		1632
