

## 2011 Cancer Liaison Physician Outstanding Performance Awards

Each year the Cancer Liaison Program gives the Outstanding Performance Award to Cancer Liaison Physicians (CLPs) who go above and beyond the scope of their normal duties. The Outstanding Performance Award recognizes individuals who have proven excellence in the following area(s):

- Improving the quality of care delivered at a CoC-accredited facility
- Contributing to the accreditation status of the cancer program
- Exceeding CLP expectations to strengthen the cancer program
- Demonstrating cancer control leadership in the community
- Serving as a champion and role model for other members of the cancer program team

CLPs are nominated for the award by their State Chair, cancer committee chair, or their facility's registrar.

Congratulations to the 2011 Cancer Liaison Physician Outstanding Performance Awardees:
