

## STANDARD 5.1: CLINICAL TRIALS INFORMATION

### **FACILITY & PATIENT RESOURCES:**

NATIONAL CANCER INSTITUTE 1-800-4-CANCER

<http://www.cancer.gov/clinicaltrials/resources/>

### **Clinical Trials Bookshelf**

#### If You Have Cancer: What You Should Know About Clinical Trials

Designed for patients considering participation in a clinical trial, this easy to read resource is designed to be used with a health care professional. Spanish version.

#### Taking Part in Clinical Trials: What Cancer Patients Need to Know

Defines clinical trials, discusses what patients might expect if they participate in a trial, and discusses things to think about when deciding to participate. Order Spanish version.

#### If You Have Cancer and Have Medicare... You Should Know About Clinical Trials

Resource for Medicare recipients who have cancer. It provides general information about cancer clinical trials, Medicare coverage, and questions to ask before joining a clinical trial.

#### Taking Part in Clinical Trials: Cancer Prevention Studies

Provides information about cancer and clinical trials, and helps people decide if participating in a chemoprevention trial is right for them. Order Spanish Version.

#### Clinical Trials Education Series

The Clinical Trials Education Series is designed for cancer patients, health professionals, and the general public. It consists of 13 different educational materials (books, booklets, slides, videos) that can be ordered separately or viewed online.

### **Publications Ordering Service**

#### Publications Locator and Catalog

An online system for finding, viewing, and ordering NCI reports, publications, and other materials. Can be searched by topic, audience, and language. Catalog of available items, updated daily, can be printed for off-line use.

### **Human Subject Protection**

#### Human Participant Protections Education for Research Teams

A Web-based course developed at the National Institutes of Health (NIH) for physicians, nurses and other members of research teams.

## Clinical Research Training for Members of the Research Team at the NIH Clinical Center

This program responds to the federal mandate requiring human subjects protection education for research teams at the NIH Clinical Center.
