

Surgical Pathology Cancer Case Summary Checklist for BREAST

Excision less than Total Mastectomy, Total Mastectomy, Modified Radical Mastectomy, Radical Mastectomy

Medical Record Number or Accession Number					
Report Format (Synoptic, Text)					
Data Elements					
Macroscopic					
Specimen Type					
Lymph Nodes Sampling					
Specimen Size (for excisions less than total mastectomy)					
Laterality					
Tumor Site					
Microscopic					
Size of Invasive Component (greatest dimension)					
Histologic Type					
Nottingham Histologic Score Tubule Formation					
Nottingham Histologic Score Nuclear Pleomorphism					
Nottingham Histologic Score Mitotic Count					
Total Nottingham Grade					
Other Grading System - Specify (May be left blank if Nottingham System is used)					
Other Grade (May be left blank if Nottingham System is used)					
Mitotic Count (May be left blank if Nottingham System is used)					
Primary Tumor (pT)					
Regional Lymph Nodes (pN)					
Distant Mets (pM)					
Distance from uninvolved margin or identification of the margin involved					
All required elements included? YES, NO
