

Surgical Pathology Cancer Case Summary Checklist for RETINOBLASTOMA
 Enucleation, Partial or Complete Exenteration

Medical Record Number or Accession Number					
Report Format (Synoptic, Text)					
Data Elements					
Macroscopic					
Specimen Type					
Laterality					
Specimen Size (For Enucleation - multiple measures. For Exenteration - Greatest dimension)					
Tumor Site and Extent					
Macroscopic examination/transillumination					
Tumor Basal Dimensions on Transillumination					
Tumor Dimensions After Sectioning					
Tumor Location After Sectioning					
Tumor Involvement or Gross Pathology of Other Ocular Structures					
Microscopic					
Histologic Features					
Growth Pattern					
Primary Tumor (pT)					
Extent of Optic Nerve Invasion					
Involvement of Other Structures					
Primary Tumor (pT)					
Regional Lymph Nodes (pN)					
Distant Metastasis (pM)					
Margins					
All required elements included? YES, NO
