

THE POST-SURVEY EVALUATION

The Post-Survey Evaluation (PSE) enables the CoC to capture feedback from the survey experience that will be used to evaluate and improve performance, and develop educational training programs in the following areas: survey communications, staff assistance, surveyor performance, and training, tools, and resources for survey preparation.

The Post-Survey Evaluation is a required part of the cancer program survey and your cooperation is requested to **complete the on-line evaluation within three weeks after the survey.**

Responses on the evaluation form should represent a consensus opinion of the cancer committee. **The answers provided will not influence the evaluation of your cancer program or approval award.**

Should you desire to speak directly with a CoC staff member to discuss your survey experience, please contact Lisa Landvogt by phone at (312) 202-5314, or e-mail at Llandvogt@facs.org.

The Post-Survey Evaluation link is located on the CoC Datalinks Activity Menu.

THE POST-SURVEY EVALUATION - 2008

COMMISSION ON CANCER POST-SURVEY EVALUATION

Facility/Network Name: VA Medical Center Test
Facility/Network ID: 6671170
