WASHINGTON, DC 20510

June 17, 2021

The Honorable Patty Murray  
Chair  
Senate Labor, Health and Human Services  
and Education Appropriations  
Subcommittee  
131 Dirksen Senate Office Building  
Washington, DC 20510

The Honorable Roy Blunt  
Ranking Member  
Senate Labor, Health and Human Services  
and Education Appropriations  
Subcommittee  
131 Dirksen Senate Office Building  
Washington, DC 20510

Dear Chair Murray and Ranking Member Blunt:

We are contacting you today to respectfully request that the Subcommittee include \$11.5 million in funding for the Military and Civilian Partnership for the Trauma Readiness Grant program in the FY22 Labor, HHS, Education Appropriations bill. As you know, this program was established by the Military Injury Surgical Systems Integrated Operationally Nationwide to Achieve ZERO Preventable Deaths Act or "MISSION ZERO Act", which was authorized by the Pandemic and All-Hazards Preparedness and Advancing Innovation Act of 2019. These grants provide funding to ensure trauma care readiness by integrating military trauma care providers into civilian trauma centers. By fully funding this critical program, we will improve the nation's response to public health and medical emergencies and mitigate some of the worst impacts of the COVID 19 pandemic on trauma centers, including but not limited to staffing shortages.

The MISSION ZERO Act stems from the June 2016 National Academy of Sciences, Engineering and Medicine (NASEM) report entitled, "*A National Trauma Care System: Integrating Military and Civilian Trauma Systems to Achieve Zero Preventable Deaths After Injury.*" This report outlines 11 recommendations necessary to secure a national trauma system and sets the goal of achieving zero preventable deaths. Recommendation number 11 of the NASEM report calls for the establishment of military-civilian trauma partnerships to help further reduce the number of preventable traumatic deaths.

According to the Centers for Disease Control and Prevention trauma is the leading cause of death for children and adults under age 44, killing more Americans than AIDS and stroke combined. We are convinced that the funding provided by the MISSION ZERO Act will allow us to continue to save lives, enhance trauma training for our military healthcare personnel and help trauma centers manage and recover from mandatory furloughs of surgeons, nurses and other staff that were a direct result of the COVID 19 pandemic.

We are grateful for your consideration of this important request. Please do not hesitate to contact us directly if you have any questions or need additional information regarding the MISSION ZERO Act.

Sincerely,

Chris Van Hollen
