

AEI Consortium Abstracts Since 2008
Abstracts by Year

Please note, TBD=To Be Determined and NA=Not Available

Abstract Type Key: Descriptive, NA, Non-AEI, Original, Research Idea and Work in Progress (2008-2017);
 Innovative Techniques, Original Paper and Poster Presentation (2018-Current)

Abstract Year	Abstract Title	Type of Abstract	Multi-Institutional Study	Manuscript Published in Surgery	First Name	Last Name	Credentials	Institute	Categories of Research									
									Curriculum Development	Teaching Methods	Learner Evaluations	Program Evaluations	Patient Safety	Surgical Outcomes	Investigation	Education	In-Development	Other
AEI2008	A Multi-Disciplinary Approach to Innovation in Surgical Education	NA	no	no	Rajesh	Aggarwal	MD, PhD, MA, FRCS	Imperial College London				X						
AEI2008	Automated and Centralized Simulation Data Repository	NA	no	no	Woojin	Shim		University of Michigan			X							
AEI2008	Collaboration: Key to the Evolution of Surgical Education	NA	no	no	Marnelle	Alexis	EdD	Duke University Medical Center		X								
AEI2008	Enhancing a General Surgery Residency Curriculum through Integration of an Online Content Management System	NA	no	no	Andreas	Meier	MD, FAAP, FACS	Penn State Hershey Medical Center	X									
AEI2008	Four-Year Curriculum for Urology Residency Training	NA	no	no	Elsbeth	McDougall	MD, FRCS, MHPE	UC Irvine	X									
AEI2008	Imperial College Competency Assessment Tool (ICCAT)	NA	no	no	Rajesh	Aggarwal	MD, PhD, MA, FRCS	Imperial College London				X						
AEI2008	Implementation and Educational Outcomes for a Central Line Workshop Subtitle: A Simulation Center and Procedural Skills Lab Collaborative	NA	no	no	William	Dunn	MD	Mayo Clinic Rochester				X						
AEI2008	Long-term Impact of the Robot Assisted Laparoscopic Prostatectomy Mini-Residency Training on Post-Graduate Urologic Practice Patterns	NA	no	no	Michael	Louie	MD	UC Irvine				X		X				
AEI2008	LSUHSC-NO Expands Surgical Education through Innovative Developments and Collaborations	NA	no	no	Sheila	Chauvin	MEd	LSUHSC-New Orleans		X								
AEI2008	Proficiency – Targeted Simulation Training of Novice Surgeons Results in Improved Laparoscopic Skills Measured in the Operating Room	NA	no	no	Paul	Gauger	MD	University of Michigan							X			
AEI2008	Regional Collaboration for Technical Skills Training in Surgery Residencies	NA	no	no	Daniel	Scott	MD, FACS	UT Southwestern				X						
AEI2008	Simulation Drives Our General Surgery Training Curriculum: A Work in Progress	NA	no	no	David	Farley	MD, FACS	Mayo Clinic Rochester	X									
AEI2008	The Cognitive Side of Surgery	NA	no	no	Carla	Pugh	MD, PhD, FACS	Northwestern University			X							
AEI2008	The MASTRI Center	NA	no	no	Adrian	Park	MD	MASTRI				X						
AEI2008	University of Minnesota PeriOperative Resource for Training and Learning (SimPORTAL)	NA	no	no	Robert	Sweet	MD, FACS	University of Minnesota/SimPORTAL		X								
AEI2009	\$500 REWARD: What Millennial Surgery Residents Will Do for a Buck	Work in Progress	no	no	David	Farley	MD, FACS	Mayo Clinic Rochester								X		
AEI2009	A Model for Strengthening Faculty Teaching Effectiveness in a Skills Laboratory	NA	no	no	Debra	DaRosa	PhD	Northwestern University								X		
AEI2009	A Novel 3D Video Telemedicine System for Education	NA	no	no	Troy	Reihsen		University of Minnesota/SimPORTAL								X		
AEI2009	A Six-part Program for Teamwork Improvement in Surgery	Work in Progress	yes	no	Jeffrey	Cooper	PhD	Center for Medical Simulation								X		
AEI2009	Administrative Considerations When Implementing ACS Skills Curriculum	Descriptive	no	yes	Deborah	Rooney	PhD	Northwestern University							X			
AEI2009	Advanced Trauma Operative Management Course: An Exemplar of Simulation Education Scenario Development	NA	no	no	Lenworth	Jacobs, Jr.	MD, MPH, FACS	Hartford Hospital								X		
AEI2009	An Evaluation of the Usefulness of the Standardized Patient Methodology in the Assessment of Surgery Residents' Communication and Professionalism	Work in Progress	no	no	Mohsen	Shabahang	MD, PhD	Texas A&M / Scott and White										X

AEI Consortium Abstracts Since 2008
Abstracts by Year

Please note, TBD=To Be Determined and NA=Not Available

Abstract Type Key: Descriptive, NA, Non-AEI, Original, Research Idea and Work in Progress (2008-2017);
 Innovative Techniques, Original Paper and Poster Presentation (2018-Current)

Abstract Year	Abstract Title	Type of Abstract	Multi-Institutional Study	Manuscript Published in Surgery	First Name	Last Name	Credentials	Institute	Categories of Research										
									Curriculum Development	Teaching Methods	Learner Evaluations	Program Evaluations	Patient Safety	Surgical Outcomes	Investigation	Education	In-Development	Other	
AEI2009	Can surgical skills training of novice medical students in the laboratory improve their technical skill and satisfaction with their surgical clerkship?	Original	no	no	Harsh	Grewal	MD, FACS	Temple University Hospital								X			
AEI2009	Critical Response Simulations: Works in Progress	NA	no	no	Jeffrey	Chipman	MD, FACS	University of Minnesota/SimPORTAL									X		
AEI2009	Developing A Performance Assessment Device for the Laparoscopic Transperitoneal Nephrectomy Procedure	NA	yes	no	Elsbeth	McDougall	MD, FRCS, MHPE	UC Irvine								X			
AEI2009	Development of a Basic Vascular Specific Surgical Skills Laboratory	NA	no	no	Erica	Mitchell	MD, FACS	VirtuOHSU								X			
AEI2009	Development of high-fidelity simulated human tissue for surgical residency training	NA	no	no	Gladys	Fernandez	MD	Baystate Medical Center								X			
AEI2009	External Review and Endorsement in Support of Business Plans for Simulation Centers	NA	no	no	Gerald	Moses	PhD	MASTRI										X	
AEI2009	Faculty Retention Strategies at Institute for Simulation and Interprofessional Studies (ISIS)	NA	no	no	Sara	Kim	PhD	University of Washington/ISIS										X	
AEI2009	Fundamentals of Robotic Surgery (FRS): Inanimate tasks for robotic surgical skills assessment and training	NA	yes	no	Alvin	Goh	MD	MITIE										X	
AEI2009	GEARS: An assessment tool to measure robotic surgical skills	NA	yes	no	Alvin	Goh	MD	MITIE										X	
AEI2009	Healthcare Teams Typology	NA	no	no	Pamela	Andreatta	EdD, MFA, MA	University of Michigan									X		
AEI2009	Impact of a Structured Training and Assessment Curriculum (STAC) on the Quality of Skill Acquisition in MIS	Work in Progress	no	no	Neil	Orzech	MD	University of Toronto										X	
AEI2009	Increased Stress Levels May Explain the Incomplete Transfer of Simulator-Acquired Skill to the Operating Room	NA	no	yes	Dimitrios	Stefanidis	MD, PhD, FACS	Carolinas Healthcare System								X			
AEI2009	Interprofessional Education: Simulation-based Mass Casualty Exercise	Descriptive	no	no	Rebecca	Wiatrek	MD	Texas A&M / Scott and White									X		
AEI2009	Introducing team training and crisis management in the surgical residency program.	NA	no	no	Harsh	Grewal	MD, FACS	Temple University Hospital										X	
AEI2009	Lessons Learned from 10-year Experience with Postgraduate Courses for Surgeons	NA	no	no	Dimitrios	Stefanidis	MD, PhD, FACS	Carolinas Healthcare System										X	
AEI2009	Longterm Impact of a Laparoscopic Renal Surgery Mini-Fellowship on Postgraduate Urologic Practice Patterns.	NA	no	no	Elsbeth	McDougall	MD, FRCS, MHPE	UC Irvine								X			
AEI2009	Lower Gastrointestinal Endoscopy Simulation Training in a Surgical Skills Training Curriculum	NA	no	no	Raphael	El Youssef	MBBS	VirtuOHSU										X	
AEI2009	Methodologies for Establishing Validity in Surgical Simulation Studies	NA	no	yes	Sara	Kim	PhD	University of Washington/ISIS								X			
AEI2009	Organization of a curriculum Designed to Transfer Learning from skills Lab to Bedside	NA	no	no	Debra	DaRosa	PhD	Northwestern University									X		
AEI2009	Outcome Measures for Surgical Simulators: Is the focus on technical skills the best approach?	Original	yes	yes	Carla	Pugh	MD, PhD, FACS	Northwestern University								X			
AEI2009	Phantom-Based Curriculum for Basics of Interventional Ultrasound	NA	no	no	Todd	Cannon		University of Washington/ISIS									X		
AEI2009	Problem Based Learning (PBL) with Supplemental Interactive Medical Multimedia (PBL-SIMM)	NA	no	no	Dayne	Mickelson		University of Washington/ISIS									X		
AEI2009	Psychometric Analysis of the Phase I ACS/APDS Skills Curriculum, Verification of Proficiency Examination	Original	no	no	Eric	Hungness	MD	Northwestern University								X			

AEI Consortium Abstracts Since 2008
Abstracts by Year

Please note, TBD=To Be Determined and NA=Not Available

Abstract Type Key: Descriptive, NA, Non-AEI, Original, Research Idea and Work in Progress (2008-2017);
 Innovative Techniques, Original Paper and Poster Presentation (2018-Current)

Abstract Year	Abstract Title	Type of Abstract	Multi-Institutional Study	Manuscript Published in Surgery	First Name	Last Name	Credentials	Institute	Categories of Research										
									Curriculum Development	Teaching Methods	Learner Evaluations	Program Evaluations	Patient Safety	Surgical Outcomes	Investigation	Education	In-Development	Other	
AEI2009	Relevance of various components of Surgical Skill Training workshop	NA	no	no	Irene	Yang		Temple University Hospital								X			
AEI2009	Role of Instruction Method in Novices' Acquisition of Minimally Invasive Surgical (MIS) Basic Skills	NA	no	no	John	Paige	MD, FACS	LSUHSC-New Orleans								X			
AEI2009	Simulated Operating Room Crisis during Robotic Surgery using a Completely Portable Human Patient Simulator (HPS)	NA	no	no	Rohan	Joseph		MITIE										X	
AEI2009	The Impact of Stress Factors in Simulation-based Laparoscopic Training"	NA	no	yes	Pamela	Andreatta	EdD, MFA, MA	University of Michigan								X			
AEI2009	The Theoretical Basis for Fabricating High Fidelity Simulation Tools for Honing Complex Surgical Skills	Original	yes	no	Carla	Pugh	MD, PhD, FACS	Northwestern University								X			
AEI2009	Toward "High Stakes" Certification in Central Line Placement: Construct Validation of a Central Line Workshop Performance Metrics	NA	no	no	Yue	Dong		Mayo Clinic Rochester								NA	NA	NA	
AEI2009	Use of a Colonoscopy Simulator to Improve the Learning Curve for General Surgery Residents	NA	no	no	Raphael	El Youssef	MBBS	VirtuOHSU										X	
AEI2009	Use of a Novel Thermal and Visual Facial Mapping System to Measure Stress in Surgeons May Provide a Valuable Metric in Surgical Skills Acquisition	NA	no	no	Rohan	Joseph		MITIE								X			
AEI2009	Using a 24/7 Audiovisual System to Create a Dynamic Surgical Curriculum and Assess Learners for Competency	Work in Progress	no	no	David	Farley	MD, FACS	Mayo Clinic Rochester										X	
AEI2009	Validity of Leak Pressure Testing for Bowel Anastomosis Quality	NA	no	no	Aaron	Jensen	MD	University of Washington/ISIS								X			
AEI2009	Workshop Using Standardized Patients to Evaluate the Communication Skills of Surgical Residents	NA	no	no	Sender	Lieberman		McGill University										X	
AEI2010	A Comprehensive Curriculum for Advanced Laparoscopic Skills	Original	no	no	Neal	Orzech	MD	University of Toronto			X	X				X			
AEI2010	A Focused and Dedicated One Week Basic Skills Curriculum Is Adequate To Reach The Expected Proficiency Level For First Year Surgery Residents In A Busy Residency Program.	Original	no	no	Ben Selvan	Chandrakaladhar	MS	Penn Medicine Clinical Simulation Center	X	X	X	X							
AEI2010	A low cost simulator to reduce global rates of maternal mortality	Original	no	no	J	Perosky		University of Michigan	X	X				X					
AEI2010	A Novel Basic Open Technical Skills Curriculum with Self- and Expert-administered Assessment Tools	Descriptive	no	no	Andrew	Wright	MD, FACS	University of Washington/ISIS	X		X	X							
AEI2010	Assembling the Puzzle that is Surgical Education: A Look at a Proficiency-Based Knot-Tying and Suturing Curriculum	Research Idea	no	no	S	Nagar	MD	Beaumont Health System	X	X	X								
AEI2010	Assessment of the core competencies in general surgery residents: A single institution experience	Non-AEI	no	no	Daniel	Alterman	MD	UT Center for Advanced Medical Simulation/UTMCK			X	X			X				
AEI2010	Deconstructing Laparoscopic Competence in a Virtual Reality Simulation Environment	Original	no	yes	Costas	Loukas	PhD	University of Athens			X	X							
AEI2010	Deficiencies of the Surgical Curriculum Exposed	Original	no	no	Paul	Montero	MD	Carolinas Healthcare System	X	X	X	X							
AEI2010	Development and Evaluation of an Open Aortic Aneurysm Repair Simulation	Non-AEI	no	no	Matt	Jones		UT Center for Advanced Medical Simulation/UTMCK	X	X	X								

AEI Consortium Abstracts Since 2008

Abstracts by Year

Please note, TBD=To Be Determined and NA=Not Available

Abstract Type Key: Descriptive, NA, Non-AEI, Original, Research Idea and Work in Progress (2008-2017); Innovative Techniques, Original Paper and Poster Presentation (2018-Current)

Abstract Year	Abstract Title	Type of Abstract	Multi-Institutional Study	Manuscript Published in Surgery	First Name	Last Name	Credentials	Institute	Categories of Research									
									Curriculum Development	Teaching Methods	Learner Evaluations	Program Evaluations	Patient Safety	Surgical Outcomes	Investigation	Education	In-Development	Other
AEI2010	Development and Implementation of a System-Wide Central Venous Catheterization Curriculum	Descriptive	no	no	Andrew	Wright	MD, FACS	University of Washington/ISIS	X	X		X	X					
AEI2010	Endovascular Procedure Simulation as an Assessment Tool for Vascular Surgeons	Non-AEI	yes	no	David	Dawson	MD, FACS	UC Davis			X							
AEI2010	Evaluating the Effectiveness of Virtual Reality Simulation Training in Intravenous Cannulation	Original	no	no	Costas	Loukas	PhD	University of Athens	X	X	X				X			
AEI2010	Improving Surgical Skills Through Simulation Education	Original	no	no	Benjamin	Zendejas		Mayo Clinic Rochester	X	X	X							
AEI2010	Investigating of Surgeon's Vigilance on Patient's Condition Using Eye-Tracking Techniques	Original	yes	no	Bin	Zheng	PhD	CESEI			X			X	X			
AEI2010	Laparoscopic training in the UK	Original	no	no	Daniel	Brown		Imperial College London		X		X						
AEI2010	Non-Technical Skills Assessment in the Post Operative Setting	Descriptive	no	no	Bharat	Sharma	MD	University of Toronto			X				X			
AEI2010	Orthopaedic boot camp: Examining the effectiveness of an intensive surgical skills course	Original	no	yes	Ranil	Sonnadara	PhD, MSc	University of Toronto	X	X	X	X			X			
AEI2010	Proving the Value of Secondary Task Metrics for Performance Assessment on Surgical Simulators	Original	yes	no	Dimitrios	Stefanidis	MD, PhD, FACS	Carolinas Healthcare System			X							
AEI2010	Quantifying Surgeon's Contribution to Team Effectiveness on a Mixed Team with a Junior Surgeon	Original	yes	yes	Bin	Zheng	PhD	CESEI	X		X				X			
AEI2010	Simulation-based distance education: practice and challenges	Original	no	no	Valentyna	Koval		CESEI	X	X	X	X						
AEI2010	Simulation-based mock code curriculum correlates with increased pediatric CPA survival rates	Original	no	no	Pamela	Andreatta	EdD, MFA, MA	University of Michigan	X	X		X	X	X				
AEI2010	Simulation-based training improves applied clinical placement of ultra-sound guided PICCs	Original	no	no	Pamela	Andreatta	EdD, MFA, MA	University of Michigan		X	X		X					
AEI2010	Surgical In-situ Simulations	Work in Progress	no	no	William	Hamman	MD, PhD	Beaumont Health System	X	X		X						
AEI2010	The Current Educational Value of Morbidity & Mortality Conference	Original	no	no	Erica	Mitchell	MD, FACS	VirtuOHSU				X	X					
AEI2010	The Development and Implementation of a Simulation-based Curriculum to Teach Interns Invasive Skills	Original	no	no	Carmen	Sultana	MD, FACS	Thomas Jefferson University	X	X	X	X						
AEI2010	The innovative use of consensus methodology to develop a technical skills evaluation tool.	Descriptive	no	no	Vanessa	Palter	MD	University of Toronto	X		X							
AEI2010	The Missing Link: Integrating the Patient Population with Surgical Education through Web-based Training and In-situ Simulation®	Research Idea	no	no	William	Hamman	MD, PhD	Beaumont Health System	X	X		X	X					
AEI2010	The Use of Simulation Hybrids in Skills Teaching and Assessment	Descriptive	no	no	Katherine	Berg	MD	Thomas Jefferson University	X	X	X							
AEI2010	Using Deliberate Practice to Train Higher-Order Skills in Laparoscopic Surgery	Work in Progress	yes	no	Jeffrey	Beaubien	PhD	Beaumont Health System	X	X	X		X	X				
AEI2010	When Do Physicians Learn Invasive Clinical Skills?	Original	no	no	Katherine	Berg	MD	Thomas Jefferson University			X	X						
AEI2010	YouTube Video + Simulation = Master TEP Hernia Surgeon?	Work in Progress	no	no	Benjamin	Zendejas		Mayo Clinic Rochester	X	X		X						
AEI2011	A Comparison Study of Basic Skills Acquisition with Virtual Reality and Physical Reality Simulation Training	Original	no	no	Constantinos	Loukas	PhD	University of Athens	X	X	X		X					
AEI2011	A Curriculum Using Simulation to Teach Interns Paracentesis	Descriptive	no	no	Katherine	Berg	MD	Thomas Jefferson University	X									

AEI Consortium Abstracts Since 2008

Abstracts by Year

Please note, TBD=To Be Determined and NA=Not Available

Abstract Type Key: Descriptive, NA, Non-AEI, Original, Research Idea and Work in Progress (2008-2017); Innovative Techniques, Original Paper and Poster Presentation (2018-Current)

Abstract Year	Abstract Title	Type of Abstract	Multi-Institutional Study	Manuscript Published in Surgery	First Name	Last Name	Credentials	Institute	Categories of Research									
									Curriculum Development	Teaching Methods	Learner Evaluations	Program Evaluations	Patient Safety	Surgical Outcomes	Investigation	Education	In-Development	Other
AEI2011	A Hybrid 3-D VR/Physical Pelvis for Training Surgically Relevant Anatomic Principles	Original	no	no	Erlan	Santos	MD	University of Minnesota/SimPORTAL	X	X	X							
AEI2011	A novel approach to the resident skills curriculum: modules on rare and common procedures linked together with simulators created by the learner.	Original	no	no	Yulia	Zak	MD	Stanford Medical Center	X	X	X							
AEI2011	A Pilot Study on Real-Time Measures of Surgical Motions in Minimally Invasive Surgery	Original	no	no	Michael	Awad	MD, PhD	Washington University School of Medicine		X	X							
AEI2011	A Simulation Assessment Tool for Tubal Ligation	Work in Progress	no	no	Carmen	Sultana	MD	Thomas Jefferson University	X	X	X							
AEI2011	A Structured Self-Directed Basic Skills Curriculum for Novices Results in Technical Performance Approaching that of Intermediate-level Residents	Original	no	yes	Andrew	Wright	MD, FACS	University of Washington/ISIS			X	X						
AEI2011	Anatomy-focused videos to supplement surgical curriculum	Descriptive	no	no	Anjali	Arora	MD	EVMS	X	X	X		X	X				
AEI2011	Are Medical Students Being Taught Invasive Skills Using Simulation?	Descriptive	no	no	Katherine	Berg	MD	Thomas Jefferson University	X	X	X							
AEI2011	Assessing the Impact of Debriefing on Mental Workload	Original	no	no	Bharat	Sharma	MD	University of Toronto		X	X		X					
AEI2011	Assessing the Value of the State Trait Anxiety Inventory for the Assessment of Intraoperative Stress Associated with Skill Transfer	Original	no	no	Dimitrios	Stefanidis	MD, PhD	Carolinas Healthcare System	X	X								
AEI2011	Augmenting Technical Skills Training Through Applications of Video, Neuro-feedback and Guided Imagery Training	Original	no	no	Ranjan	Sudan	MD	Duke University Medical Center			X							
AEI2011	Behavioral Impact of Inter-Professional Student Operating Room Team Training using High Fidelity Simulation	Original	no	no	John	Paige	MD, FACS	LSUHSC-New Orleans	X	X	X		X					
AEI2011	Can Skills Coaches be Used to Assess Resident Performance in the Skills Laboratory?	Original	yes	yes	Deborah	Rooney	PhDc	Northwestern University	X	X	X							
AEI2011	Can virtual reality simulation be used for advanced bariatric surgical training?	Original	no	yes	Trystan	Lewis	MB, BS, BSc, MRCS	Imperial College London			X	X			X			
AEI2011	Data-Driven Optimization of Surgeon Skills for Enhanced Training, Simulation, and Assessment	Work in Progress	yes	no	Noaman	Ali	MD	Beaumont Health System			X							
AEI2011	Design and Validation of a Model for Training and Assessment of Procedural Skills in Open Surgery	Original	yes	no	Neil	Rittenhouse	MHSc	University of Toronto	X	X	X			X				
AEI2011	Design and Validation of a Surgical Skills Assessment Tool for Laparoscopic Roux-en-Y Gastric Bypass	Work in Progress	yes	no	Boris	Zevin	MD	University of Toronto	X		X		X					
AEI2011	Determination of Standardized Tasks and Assessment for a Simulation-Based Curriculum in Arthroscopic Knee Surgery	Research Idea	no	no	Marie-Eve	LeBel	MD, FRCSC	University of Western Ontario	X	X								
AEI2011	Developing a Proficiency-Based Virtual Reality Technical Skills Training curriculum for Laparoscopic Colorectal Surgery	Original	yes	no	Vanessa	Palter	MD	St. Michael's Hospital/University of Toronto	X									
AEI2011	Enlarging the Scope of ACS Accredited Education Institutes for Learners in Different Disciplines	Descriptive	no	no	Bin	Zheng	MD, PhD	CESEI	X	X								
AEI2011	Enterprise Deployment of a Simulation-based Training and Management program for Central Venous Catheters	Original	no	no	Mika	Sinanani	MD, PhD	University of Washington/ISIS	X				X	X				
AEI2011	Fundamentals of Laparoscopic Surgery (FLS) Manual Skills Assessment: Surgeon Versus Non-surgeon Raters	Original	yes	no	Deborah	Rooney	PhDc	Northwestern University					X					

AEI Consortium Abstracts Since 2008

Abstracts by Year

Please note, TBD=To Be Determined and NA=Not Available

Abstract Type Key: Descriptive, NA, Non-AEI, Original, Research Idea and Work in Progress (2008-2017); Innovative Techniques, Original Paper and Poster Presentation (2018-Current)

Abstract Year	Abstract Title	Type of Abstract	Multi-Institutional Study	Manuscript Published in Surgery	First Name	Last Name	Credentials	Institute	Categories of Research									
									Curriculum Development	Teaching Methods	Learner Evaluations	Program Evaluations	Patient Safety	Surgical Outcomes	Investigation	Education	In-Development	Other
AEI2011	Integration of a Curriculum for the Surgeons Training Endoscopic Proficiency (STEP) Program into General Surgery Residency	Work in Progress	no	no	Andrew	Kastenmeier	MD	Lahey Health System	X	X								
AEI2011	Integration of Procedural Skills Simulation and Just In Time Training into an Advanced Physical Diagnosis Program	Work in Progress	no	no	Edward	Jasper	MD	Thomas Jefferson University	X	X	X		X					
AEI2011	Interdisciplinary team training identified significant discrepancies between institutional policies and clinical practice	Descriptive	no	no	Pamela	Andreatta	PhD	University of Michigan				X	X					
AEI2011	Interdisciplinary team training led to successful management of a rare Obstetric emergency	Original	no	no	Pamela	Andreatta	PhD	University of Michigan		X		X	X	X				
AEI2011	Low-Hanging Fruit: Using Clementines for laparoscopic surgery training in gynecological oncology	Original	no	no	Pamela	Andreatta	PhD	University of Michigan	X	X	X		X	X				
AEI2011	Mastering Instruments at Hands before Operating on Patient - Role of Simulation in Training of Tool Use Skills	Original	no	no	Bin	Zheng	MD, PhD	CESEI							X			
AEI2011	No More Hotel Stays for ABS Examiners or Examinees: A Pilot Study to Assess the Internet as an Oral Exam Platform	Research Idea	yes	no	David	Farley	MD	Mayo Clinic Rochester		X	X							
AEI2011	Orthopaedic boot camp II: Examining retention rates for skills taught through an intensive laboratory-based surgical skills course	Original	yes	yes	Ranil	Sonnadara	PhD, MSc	Mount Sinai Hospital		X		X						
AEI2011	Patient-Specific Simulated Rehearsal for the Carotid Artery Stenting Procedure	Original	yes	no	Willem	Willaert	MD	Imperial College London		X		X	X	X				
AEI2011	Prediction of Future Performance in Minimally Invasive Surgery – A Tool for Surgical Selection	Original	no	no	Rajesh	Aggarwal	MD, PhD, MA, FRCS	Imperial College London		X	X							
AEI2011	Residents' Perspectives on the Value of Simulation in a General Surgery Residency Curriculum	Original	yes	yes	Hania	Wehbe-Janek	PhD	Texas A&M / Scott and White			X	X						
AEI2011	Setting Mastery Learning Standards for Laparoscopic TEP Inguinal Hernia Repair Simulator Training	Original	no	no	Benjamin	Zendejas	MD	Mayo Clinic Rochester	X	X	X							
AEI2011	Simulation for Operative Laparoscopic skill Advancement of Residents (SOLAR): A Global Study	Original Paper	no	no	Rajesh	Aggarwal	MD, MA, PhD, MRCS	Imperial College London	X	X	X	X						
AEI2011	Simulation-augmented training program for Off-Pump Coronary Artery Bypass surgery: Developing and validating performance assessments	Original	no	yes	Sayra	Cristancho	PhD	University of Western Ontario	X		X			X				
AEI2011	Simulator leads to clinical practice changes for bimanual uterine compression to control Sticky Situations: Using foam stickers for precision and tissue handling in laparoscopic training	Descriptive	no	no	Pamela	Andreatta	PhD	University of Michigan		X		X						
AEI2011	The Surgical Simulation Fellowship Program: Developing International Surgical Leaders in the Art and Sciences of Simulation	Original	no	no	Pamela	Andreatta	PhD	University of Michigan	X	X	X							
AEI2011	Toward the Development of an Observer-Based Tool for Assessing, Debriefing, and Trending Higher-Order Skills During Laparoscopic Surgery	Descriptive	no	no	Robert	Sweet	MD, FACS	University of Minnesota/SimPORTAL	X	X		X						
AEI2011	Transfer of skills between virtual colonoscopy and laparoscopy	Original	no	no	Charles	Shanley	MD, FACS	Beaumont Health System	X	X	X							
AEI2011	Use of decision based simulation to explore shared mental models in the operating room	Original	yes	no	Lars	Enochsson	MD, PhD	Karolinska University Hospital		X		X						
AEI2011	Use of decision based simulation to explore shared mental models in the operating room	Original	no	no	Carla	Pugh	MD, PhD	Northwestern University			X		X					

AEI Consortium Abstracts Since 2008
Abstracts by Year

Please note, TBD=To Be Determined and NA=Not Available

Abstract Type Key: Descriptive, NA, Non-AEI, Original, Research Idea and Work in Progress (2008-2017);
 Innovative Techniques, Original Paper and Poster Presentation (2018-Current)

Abstract Year	Abstract Title	Type of Abstract	Multi-Institutional Study	Manuscript Published in Surgery	First Name	Last Name	Credentials	Institute	Categories of Research									
									Curriculum Development	Teaching Methods	Learner Evaluations	Program Evaluations	Patient Safety	Surgical Outcomes	Investigation	Education	In-Development	Other
AEI2011	Utilization of Simulation Based Training and Objective Structured Assessment of Technical Skills for Credentialing of Central Venous and Arterial Line Placement in the Surgical Intensive Care Unit	Work in Progress	no	no	Noaman	Ali	MD	Beaumont Health System	X	X	X		X					
AEI2011	Validation of a Novel Assessment Tool for Central Venous Catheterization	Original	no	no	Andrew	Wright	MD, FACS	University of Washington/ISIS	X	X	X	X	X					
AEI2012	A comparison of self versus external assessment for technical tasks in surgery.	Descriptive	no	no	Boris	Zevin	MD	University of Toronto			X							
AEI2012	Acquisition of New Skills By Novices: Effect of Three Different Instructional Methods	Original	no	no	James	Gregory	MD	Conemaugh Memorial Hospital	X	X	X							
AEI2012	Adding Audio-Visual On-line Learning to a Surgery Simulation Curriculum Will Decrease Cognitive Load and Facilitate Learning for Surgical Interns.	Original	no	no	Shahzad	Ali	MD	Mayo Clinic Rochester	X	X	X			X				
AEI2012	Barriers to the Adoption of the ACS/APDS Skills Curriculum	Original	no	yes	Patricia	Pentlak	MD	Beaumont Health System	X	X								
AEI2012	Cadavers versus Pigs: Which are Better for Procedural Training of Surgery Residents Outside the OR?	Original	no	yes	Dimitrios	Stefanidis	MD, PhD, FACS	Carolinas Healthcare System	X	X	X							
AEI2012	Can Peers be Used to Assess Resident Performance in the Skills Laboratory?	Original	no	no	Deborah	Rooney	PhD	Northwestern University	X	X	X	X		X				
AEI2012	Characteristics in Response Rates for Surveys Administered to Surgical Residents	Original	no	yes	John	Yarger	MD	University of Vermont	X		X	X						
AEI2012	Creating the Pre-Trained Novice: A Structured Central Venous Catheterization Curriculum	Original	no	no	Edgar	Figuredo	MD	University of Washington/ISIS	X		X							
AEI2012	Differences Between Resident Specialties, Education & Faculty: Results of an All GME Resident Boot Camp	Original	no	no	James	Gregory	MD	Conemaugh Memorial Hospital	X	X	X		X	X				
AEI2012	Evaluating General Surgery Residents: Is it Worth an Olympic Effort?	Original	no	no	Roberto	Hernandez-Irizarry	BS	Mayo Clinic Rochester	X	X	X	X						
AEI2012	Evaluation of Stress on Laparoscopic Skills of Surgical Residents in Simulation-Based Education	Research Idea	no	no	William	Boyer	DHSc	Lehigh Valley Health Network		X	X		X					
AEI2012	Hemostasis in a non-compressible hemorrhage model: an end-user evaluation of hemostatic agents in a proximal arterial injury	Original	no	no	Steven	Satterly	MD	Madigan Army Medical Center			X	X	X	X				
AEI2012	Initial Steps Towards the Development of a De Novo Simulation-Based Anesthesia Curriculum	Work in Progress	no	no	Edwin	Ozawa	MD, PhD	Lahey Health System	X	X			X					
AEI2012	Interprofessional Education: Simulation-based Mass Casualty Exercise	Descriptive	yes	no	J. Scott	Thomas	MD, FACS	Texas A&M / Scott and White	X			X						
AEI2012	Laparoscopic Cholecystectomy Simulation-Based Training: Does the Type of Trainer Matter?	Original	no	no	John	Paige	MD, FACS	LSUHSC-New Orleans	X	X	X	X	X	X				
AEI2012	LVHN [The Level II Accreditation Journey	Descriptive	no	no	Cathyann	Feher	RN, MSN	Lehigh Valley Health Network	X			X						
AEI2012	Nurse Training with Simulation: An Innovative Approach to Teach Complex Microsurgery Patient Care	Descriptive	no	no	John	Potochny	MD, FACS	Penn State Hershey Medical Center	X	X		X						
AEI2012	Orthopaedic Boot Camp III: Examining the efficacy of student-regulated learning during an intensive laboratory-based surgical skills course	Original	no	yes	Ranil	Sonnadara	PhD	University of Toronto	X	X	X							
AEI2012	Report on the First Consensus Conference on the Fundamentals of Robotic Surgery: Outcome Measures	Original	yes	no	Richard	Satava, Jr.	MD, FACS	University of Washington/ISIS	NA	NA	NA	NA	NA	NA				

AEI Consortium Abstracts Since 2008

Abstracts by Year

Please note, TBD=To Be Determined and NA=Not Available

Abstract Type Key: Descriptive, NA, Non-AEI, Original, Research Idea and Work in Progress (2008-2017); Innovative Techniques, Original Paper and Poster Presentation (2018-Current)

Abstract Year	Abstract Title	Type of Abstract	Multi-Institutional Study	Manuscript Published in Surgery	First Name	Last Name	Credentials	Institute	Categories of Research									
									Curriculum Development	Teaching Methods	Learner Evaluations	Program Evaluations	Patient Safety	Surgical Outcomes	Investigation	Education	In-Development	Other
AEI2012	Simulation Based Training in High Risk/Low Frequency Situations: A Case Presentation	Descriptive	no	no	Benjamin	Radcliffe	MD	Riverside Methodist Hospital	X	X	X	X	X	X				
AEI2012	Simulation enhances surgery residents opinion on the importance of team working	Original	no	no	Jean	Breud	MD, PhD	University of Nice		X		X	X					
AEI2012	Skills transfer between basic laparoscopic and colonoscopic simulator training	Original	no	no	Lars	Enochsson	MD, PHD	Karolinska University Hospital		X	X	X		X				
AEI2012	Survey-Based Team Assessments: A Critical Evaluation Of Behavioral Constructs And Item Selection	Original	no	no	Carla	Pugh	MD, PhD, FACS	Northwestern University		X	X							
AEI2012	The American College of Surgeons / Association of Program Directors in Surgery National Skills Curriculum: Adoption Rate, Challenges and Strategies for Effective Implementation into Surgical Residency Programs	Original	no	yes	James	Korndorffer, Jr.	MD, MHPE, FACS	Tulane University School of Medicine				X	X					
AEI2012	The Anatomy of Bronchoscopy Simulation: Enhancing Experiential Learning through Embedded Research Algorithms (EMA)	Work in Progress	no	no	Robert	Hafey	BS	SiTEL's Clinical Simulation Center of MedStar Health	X	X	X	X	X					
AEI2012	Transfer Effectiveness for a Virtual Reality Laparoscopic Appendectomy Curriculum	Original	yes	no	Amish	Acharya	BSc	Imperial College London	X	X		X						
AEI2012	Update on the Progress to Establish National and International Collaboration on Curriculum Development - The ASSET and FRS Experience	Descriptive	no	no	Richard	Satava, Jr.	MD, FACS	University of Washington/ISIS	X			X						
AEI2012	Using a Many-Facet Rasch Measurement Approach for Validation of Central Venous Catheter Tool Used in Verification of Proficiency Examination	Original	yes	no	Deborah	Rooney	PhD	Northwestern University	X	X	X							
AEI2012	Variations in Procedure Time Based on PGY Level of General Surgery Residents	Descriptive	yes	no	Jeremy	Johnson	MD	University of Oklahoma	X	X	X	X		X				
AEI2013	A \$4.87 Model for Teaching and Assessing Basic Tube Thoracostomy Techniques	Original	no	no	Raaj	Ruparel	MD	Mayo Clinic Rochester		X								
AEI2013	A Comparison of Surgical Training Quality Between the UK and the USA	Original	yes	no	Pritam	Singh	MBBS, MA, MRCS	Imperial College London		X		X						
AEI2013	A Proficiency-based Da Vinci® Skills Simulator(TM) Training Curriculum	Original	no	no	Victor	Wilcox, Jr	MD	MITIE	X									
AEI2013	Advanced Training in Laparoscopic Abdominal Surgery (ATLAS): a Systematic Review	Descriptive	yes	no	Laura	Beyer-Berjot	MD	Imperial College London/St. Mary's Hospital		X								
AEI2013	An Interdisciplinary Boot Camp Where Interns and Nurses Learn Together	Descriptive	no	no	Darlene	Bourgeois	MSN, RN	Lahey Health System	X	X		X						
AEI2013	Assessing the Validity and Reliability of Two GME Performance Assessment Tools for CME	Original	yes	no	Carla	Pugh	MD, PhD, FACS	University of Wisconsin				X						
AEI2013	Creation of a cost-effect per diem medical student work force for a busy American College of Surgeons Accredited Education Institute (AEI) – a model for use by consortium members	Original	no	no	Lauren	Karbach	BA	MITIE	X									
AEI2013	Crew resource management training in surgical residency programs: A survey of North American program directors	Original	no	no	Nicholas	Dedy	MD	St. Michael's Hospital/University of Toronto	X	X		X						
AEI2013	Face, content, construct validity and learning curve in robotic surgery simulation training: results of a multicentric evaluation of dV-Trainer®	Original	yes	no	Cyril	Perrenot	MD	Lorraine University	X	X	X	X

Abstracts by Year

Please note, TBD=To Be Determined and NA=Not Available

Abstract Type Key: Descriptive, NA, Non-AEI, Original, Research Idea and Work in Progress (2008-2017); Innovative Techniques, Original Paper and Poster Presentation (2018-Current)

Abstract Year	Abstract Title	Type of Abstract	Multi-Institutional Study	Manuscript Published in Surgery	First Name	Last Name	Credentials	Institute	Categories of Research									
									Curriculum Development	Teaching Methods	Learner Evaluations	Program Evaluations	Patient Safety	Surgical Outcomes	Investigation	Education	In-Development	Other
AEI2013	Filling a void: Developing standard subjective assessment tool for surgical simulation through systematic review of current practices	Original	no	yes	F. Jacob	Seagull	PhD	University of Michigan		X	X							
AEI2013	French language adaptation of the O.S.A.T.S score for a technical skills : methodology and preliminary results of the score adaptation	Research Idea	yes	no	Jean	Breud	PhD	University of Nice			X							
AEI2013	Fundamentals of Laparoscopic Surgery Manual Test: Is videotaped performance assessment an option?	Work in Progress	no	no	Deborah	Rooney	PhD	University of Michigan	X		X	X						
AEI2013	International Consensus on Defining and Measuring Quality in Surgical Training	Original	yes	no	Pritam	Singh	MBBS, MA, MRCS	Imperial College London				X	X					
AEI2013	Introduction of a Comprehensive Training Curriculum in Laparoscopic Surgery for Medical Students: a Randomized Trial.	Original	no	yes	Nada	Gawad	HBSc	St. Michael's Hospital/University of Toronto	X	X	X			X				
AEI2013	Introduction of VR Simulation Based National Training Course on Neurosurgery at Congress of Neurological Surgeons (CNS): Preliminary Results	Research Idea	no	no	Ben	Roitberg	MD	University of Chicago	X	X	X	X		X				
AEI2013	Laboratory Simulation is Useful in Training Residents in Bowel and Vascular Anastomosis	Research Idea	no	no	Vijay	Mittal	MD	Providence Hospital and Medical Centers	X	X				X				
AEI2013	Learning to round before rounds	Descriptive	no	no	William	Yi	MD	SiTEL's Clinical Simulation Center of MedStar Health	X	X	X							
AEI2013	Perceptions of Surgical Task Trainers – What Do Trainees Prefer?	Original	no	no	Raaj	Ruparel	MD	Mayo Clinic Rochester	X	X	X	X						
AEI2013	Physician Perception of Frailty and Role in Surgical Risk Assessment	Work in Progress	no	no	Mark	Ferguson	MD	University of Chicago	X									
AEI2013	Pilot Study Using Virtual Reality Simulation to Create a Novel Objective Test Battery of Sensory-motor Skills in Candidates for a Surgical Residency.	Work in Progress	no	no	Ben	Roitberg	MD	University of Chicago	X	X	X							
AEI2013	Preparing to Save a Life - Simulation Course for Penetrating Thoracic Trauma in a Low Volume Hospital	Descriptive	no	no	Dmitry	Nepomnayshy	MD, FACS	Lahey Health System	X	X	X							
AEI2013	Pushing the Milestone Project Further: Using X-Games (Simulation-Based Assessment) to Determine Promotional Eligibility among General Surgery Residents – A Preliminary Experience	Original	no	no	Raaj	Ruparel	MD	Mayo Clinic Rochester			X	X	X					
AEI2013	Resident Perception of Barriers to Adequate Patient Handoff	Original	no	no	Rebecca	Britt	MD	EVMS	X	X								
AEI2013	Simulation For the Assessment of Ward-based Surgical Care: Validation of the Simulated Ward and a Novel Assessment Tool	Original	no	no	Philip	Pucher	MD, MRCS	Imperial College London	X	X	X							
AEI2013	Surgical Training: Design of a Virtual Care Pathway Approach	Descriptive	yes	yes	Laura	Beyer-Berjot	MD	Imperial College London/St. Mary's Hospital	X	X			X	X				
AEI2013	Teaching the Essentials of Endocrine Surgery via Low-Cost, Low-Fidelity Simulation – A Clever Use of Yarn and Felt	Original	no	no	Raaj	Ruparel	MD	Mayo Clinic Rochester	X	X	X			X				
AEI2013	Technical and non-technical skills influencing laparoscopic performance among OBGYN residents	Original	no	no	Lars	Enochsson	MD, PhD	Karolinska University Hospital	X	X	X			X				
AEI2013	The Community as a Learner Group	Descriptive	no	no	Cathyann	Feher	RN, MSN	Lehigh Valley Health Network				X	X

									Curriculum Development	Teaching Methods	Learner Evaluations	Program Evaluations	Patient Safety	Surgical Outcomes	Investigation	Education	In-Development	Other
AEI2013	The Effects of the Addition of a Pediatric Surgery Fellow on the Operative Experience of the General Surgery Resident	Descriptive	no	no	Alexander	Raines	MD	Oklahoma University Health Sciences Center		X		X						
AEI2013	The Future of Surgical Training: National Needs Assessment of Stakeholders	Original	yes	yes	Sara	Kim	PhD	ACS AEI Curriculum Committee Study Paper	X			X	X					
AEI2013	The Process and Content of Biostatistical Consultation within Simulation	Descriptive	no	no	Robert	Heidel	PhD	UT Center for Advanced Medical Simulation/UTMCK		X	X	X						
AEI2013	The Rationale for Combining Surgical Simulation and Audiovisual Education: More Repetitions, Less Cost, and Greater Resident Engagement and Satisfaction	Original	no	yes	Yazan	AlJamal	MD	Mayo Clinic Rochester	X	X	X	X						
AEI2013	The Relative Contribution of Mixed Training in the Acquisition of Advanced Laparoscopic Skills	Original	no	no	Costas	Loukas	PhD	University of Athens		X								
AEI2013	The Rule of '4s': A Theory-Driven Approach to Implementing Simulation into Surgical Training	Original	yes	no	Sonal	Arora	MD, PhD	Imperial College London	X	X								
AEI2013	Thinking it Through: Correlation of Mental Rehearsal Attitudinal Gains with Performance Parameters on Two Separate Laparoscopic Cholecystectomy Trainers	Original	no	no	John	Paige	MD, FACS	LSUHSC-New Orleans	X	X								
AEI2013	Understanding Experiential Learning Styles in Residency	Original	no	no	Jason	Zigmont	PhD	OhioHealth		X	X							
AEI2013	Utilization of the Human-Worn Partial Task Surgical Simulator in Extreme environmental terrain and weather conditions.	Original	no	no	Robert	Rush	MD	Madigan Army Medical Center	X	X	X	X	X					
AEI2013	Using Video Motion Analysis to Quantify Technical Performance	Original	yes	yes	Carly	Glamer	MD	University of Wisconsin	X		X			X				
AEI2013	Utilization of Operating Room Simulation to Enhance Surgical Resident Participation in the Surgical Timeout Checklists	Original	no	no	Edward	Dominguez	MD	Riverside Surgical Associates	X	X	X		X					
AEI2014	A Model Curriculum of Immersive Simulation of Airway Emergencies to Enhance Professionalism in Resident Education	Work in Progress	no	no	Angela	Blood	MPH, MBA	University of Chicago	X	X	X							
AEI2014	A Novel Educational Module for Subclavian Venous Catheter Placement Using Ultrasound Guidance	Original	no	no	Andrew	Bayci	MD	Beaumont Health System	X	X			X	X				
AEI2014	A Randomized Controlled Study to Evaluate the Role of Video-Based Coaching in Training Laparoscopic Skills	Original	yes	no	Pritam	Singh	MB, BS, MA, MRCS	Imperial College London	X	X	X	X	X					
AEI2014	A surgical educators armamentarium: Using Jeopardy to assess residents' retention and improvement of medical knowledge	Original	no	no	Jad	Abdelsattar	MB, BS	Mayo Clinic Rochester	X	X	X	X						
AEI2014	A Video-based Method for Assessing Proctors' Scoring of the Fundamentals of Laparoscopic Surgery (FLS) Manual Skills Exam	Original	no	no	Deborah	Rooney	PhD	University of Michigan			X	X						
AEI2014	Assessing Technical Competence in Surgical Trainees: A Systematic Review	Original	yes	no	Peter	Szasz	MD	University of Toronto		X	X	X		X				
AEI2014	Assessment of subjects without experience in minimal access surgery performing a suture task at da Vinci robot	Original	no	no	Andrea	Moglia	PhD	EndoCAS	X	X	X							
AEI2014	Complications Related to Chest Tube Placement at the Mayo Clinic and a Plan for Quality Improvement	Original	no	no	Raaj	Ruparel	MD	Mayo Clinic Rochester	X	X		X	X	X				
AEI2014	Current Use of Surgical Simulators in Gynecology Across French Academic Schools : a National Survey	Original	yes	no	Patrice	Crochet	MD	Assistance Publique des Hôpitaux de Marseille		X

									Curriculum Development	Teaching Methods	Learner Evaluations	Program Evaluations	Patient Safety	Surgical Outcomes	Investigation	Education	In-Development	Other
AEI2014	Practicality of Using Galvanic Skin Response to Measure Intra-operative Physiological Autonomic Activation in Operating Room Team Members	Descriptive	no	yes	Roy	Phitayakorn	MD, MEd	MGH		X	X		X					
AEI2014	Simulating Azygos Vein Ligation - Deliberate Practice is Invaluable	Original	no	no	Phillip	Rowse	MD	Mayo Clinic Rochester	X	X	X							
AEI2014	Skills Degradation of Seasoned General Surgeons Subjected to Gaps in Standard Practice Patterns Due to Combat Deployments	Original	yes	no	Yong	Choi	MD, FACS	Dwight D. Eisenhower Army Medical Center/Fort Gordon			X		X	X				
AEI2014	Surgical care checklists to optimise patient care following post-operative complications	Original	yes	no	Philip	Pucher	MD, MRCS	Imperial College London	X			X		X				
AEI2014	Surgical Skill Performance Prediction: Application of a Cognitive Model to Laparoscopic Skill Retention Simulation Training	Original	yes	no	Tiffany	Jastrzembki	PhD	Air Force Research Laboratory/Wright-Patterson AFB	X		X							
AEI2014	The Implementation of a Body Donation Program to Support Surgical Education at an Accredited Education Institute	Descriptive	no	no	Jirina	Trunekova	BS	Lahey Health System										
AEI2014	The Implementation of Surgical Crisis Checklists in Perioperative Team Simulation	Original	no	no	Paul	Huffstutter	MD, FACS	UT Center for Advanced Medical Simulation/UTMCK		X				X	X			
AEI2014	The Relationship between Intra-operative Teamwork and Quality of Patient Care	Descriptive	no	yes	Roy	Phitayakorn	MD, MEd	MGH			X	X	X	X	X			
AEI2014	Through the Looking Glass: Comparison of Self-, Peer-, and Observer-based Assessment of Students during Inter-Professional Team Training	Original	no	no	John	Paige	MD, FACS	LSUHSC-New Orleans	X	X	X	X	X					
AEI2014	Use of Error Analysis to Assess Resident Performance	Original	no	yes	Anne-Lise	Maag	MD	University of Wisconsin		X	X							
AEI2014	Video Skills Curricula and Simulation: A Synergistic Way to Teach Two-Layered Handsewn Small Bowel Anastomosis	Original	no	no	Phillip	Rowse	MD	Mayo Clinic Rochester	X	X	X							
AEI2014	Who is the Ideal Partner for the Interdisciplinary Training of Surgery Residents?	Original	no	no	Dimitrios	Stefanidis	MD, PhD, FACS, FASMBS	Carolinas Healthcare System	X	X	X	X	X					
AEI2014	Worth a thousand words: Google Glass in surgery	Descriptive	no	no	Gabriel	Wallace	MD	University of Washington/ISIS		X				X	X			
AEI2015	A Novel Mental Skills Curriculum Minimizes Deterioration of Simulator-acquired Skill During Transfer to the Operating Room	Original	no	no	Dimitrios	Stefanidis	MD, PhD, FACS, FASMBS	Carolinas Healthcare System	X	X	X							
AEI2015	A Simulator and two tools: Validation of performance measures from a novel neurosurgery simulator using the current Standards framework	Descriptive	no	yes	Deborah	Rooney	PhD	University of Michigan	X	X	X			X	X			
AEI2015	A Stepwise Approach for Simulation-based Curriculum Development for Clinical Skills	Original	no	no	Nehal	Khamis	MD, PhD, MEd	College of Medicine, King Saud University	X	X	X	X						
AEI2015	An examination of the "seductive details effect" in acquisition and transfer of laparoscopic suturing skills	Original	yes	yes	Aimee	Gardner	PhD	UT Southwestern	X	X	X	X						
AEI2015	Basic skills training - black box or high fidelity simulators?	Original	yes	no	Lars	Enochsson	MD, PhD	Karolinska University Hospital	X	X	X				X			
AEI2015	Cadaveric Model for Training and Assessment of Traumatic Wound Management and Hemorrhage	Original	no	no	Troy	Reihsen		University of Minnesota	X	X				X	X			
AEI2015	Comparing Mechanical Tissue Properties of Simulator, Animal, and Human Tissue	Original	no	no	Sneha	Somani	BS	University of Minnesota	X	X		X

AEI2015	Teaching With Technology – What Do Millennial Learners Need?	Original	no	np	Meredith	Cody Thomas	BA	Lahey Health System	X									
AEI2015	The changing role of the surgical skills laboratory in the MIS training of general surgery residents: from a “cherry picking” approach to a standardized, proficiency-based curriculum	Original	no	no	Antonio	Gangemi	MD	UIC	X	X	X	X		X				
AEI2015	The Correlation of Salivary Cortisol and Alpha Amylase in the execution of Realistic Surgical Trauma Simulation and Medical Student Training	Original	yes	no	Anthony	LaPorta	MD, FACS	Rocky Vista University School of Medicine	X	X	X	X						
AEI2015	The Creation of PGY Level Specific FLS Proficiency Benchmarks Allows for Longitudinal Tracking of Multiple General Surgery Milestones Domains	Descriptive	no	no	Donn	Spight	MD, FACS	VirtuOHSU	X	X	X							
AEI2015	The Tell-Tale Heart and Team Crisis Simulation in an In-Situ Operating Room	Original	no	no	Roy	Phitayakorn	MD, MED, FACS	MGH		X	X							
AEI2015	The Utility of Electronic Tablets in ATLS Skills Evaluation	Descriptive	yes	no	Marie	Chotiner	BA	CAMLS			X	X						
AEI2015	What would be the Role of Haptics if Incorporated in Robotic Surgery?	Original	no	no	Cristian	Luciano	PhD	UIC	X	X	X			X				
AEI2016	“Live Cadaver” A realistic training model for practicing neurovascular procedures & Enhancing surgical skills	Descriptive	no	no	Emad	Aboud	MD	Arkansas Neuroscience Institute										
AEI2016	A Flexible Platform for Building Cumulative Milestone-Based Surgical Resident Portfolios	Descriptive	no	no	Avni	Khatri	BS	MGH	X		X	X						
AEI2016	A novel educational module for placement of continuous intercostal nerve blockade for traumatic rib fractures	Original	no	no	Jonathan	Gower	MD	Naval Med Ctr San Diego			X	X						
AEI2016	A novel educational module for placement of continuous intercostal nerve blockade for traumatic rib fractures	Original	no	no	Shruni	Sevak	MD	Beaumont Health System			X	X						
AEI2016	An interactive multicenter multi-national virtual grand rounds for ACS AEI	Original	yes	no	Ivan	George		Anne Arundel			X	X						
AEI2016	Artificial Blood CF1 Demonstrating Reduced Volume Loss for Open Surgery Simulation in Human Cadavers	Original	no	no	Joss	Fernandez	MD, FACS	MO Heart Center										
AEI2016	Cadaveric Dissection vs. Homemade Model: What is the Best Way to Teach Endoscopic Totally Extraperitoneal Inguinal Hernia Repair?	Original	no	no	Yazan	AlJamal	MB, BS	Mayo Clinic Rochester			X	X						

AEI Consortium Abstracts Since 2008
Abstracts by Year

Please note, TBD=To Be Determined and NA=Not Available

Abstract Type Key: Descriptive, NA, Non-AEI, Original, Research Idea and Work in Progress (2008-2017);
 Innovative Techniques, Original Paper and Poster Presentation (2018-Current)

Abstract Year	Abstract Title	Type of Abstract	Multi-Institutional Study	Manuscript Published in Surgery	First Name	Last Name	Credentials	Institute	Categories of Research									
									Curriculum Development	Teaching Methods	Learner Evaluations	Program Evaluations	Patient Safety	Surgical Outcomes	Investigation	Education	In-Development	Other
AEI2016	Comparison of FLS Tasks When Training on Standard FLS Platform Versus an Ergonomically Different Platform	Original	no	no	Sarah	Haviland	BS	Walter Reed/Uniformed Svc			X	X						
AEI2016	Computerizing the ATLS® Post-Test: Implications for Further Study	Original	no	no	Jenny	Guido	MD	USF										
AEI2016	CPR Devices & Impact on Infant Chest Compressions	Original	no	no	Carmen	Spalding	PhD	Naval Med Ctr San Diego			X	X						
AEI2016	Crowdsourcing Unmet Needs in Simulation-Based Education and Technology	Original	no	no	Cory	Schaffhausen	PhD	University of Minnesota										
AEI2016	Defining and Simulating Needle Insertion Forces for Percutaneous Renal Access	Original	no	no	Lauren	Poniatowski	MS	University of Minnesota										
AEI2016	Development of a Laparoscopic Appendectomy Silicone Training Model Using Three-Dimensional Printing Technology	Original	no	no	Jonathan	Dort	MD, FACS	INOVA Health System										
AEI2016	Direct Anterior Approach THA Course Curriculum: An Interprofessional and Experiential Learning Model	Work in Progress	no	no	Lara	Murphy	DPM, BSc(Hons)	CSTAR	X									
AEI2016	Do Great Teams Think Alike? An Examination of Team Mental Models and their Impact on Team Performance	Original	no	yes	Aimee	Gardner	PhD	UT Southwestern										
AEI2016	Do Non-Technical Skills Improve with Technical Skills Training? A Comparison of Non-Technical Skills Rating and Operative Performance Rating in Simulation	Original	no	no	Rao	Raghavendra	MD	University of Pennsylvania	X		X	X						
AEI2016	Does Musical Instrument Experience Correlate With Higher Performance On The Robot Simulator?	Original	no	no	Antonio	Gangemi	MD, FACS	UIC			X	X						
AEI2016	Does previous exposure to videogames and/or practice with musical instruments influence performance on a virtual simulator for robot-assisted surgery?	Original	no	no	Andrea	Moglia	PhD	EndoCAS										
AEI2016	Effect of Team Training on Resuscitation Times and Critical Errors in Simulated Trauma Following Shipboard Surgical Trauma Training (S2T2) Curriculum—Cumulative Data	Original	no	no	Ross	Mullinax	MD	Rocky Vista University School of Medicine										
AEI2016	Efficacy of a simulation-based training program for improving the communication skills of general surgery and obstetrics and gynecology residents	Original	no	no	Ngan	Nguyen	PhD	Ohio Health			X	X						
AEI2016	Enhancing the realism of a surgical simulation cadaver lab using intravascular pressurization technique	Original	no	no	Lauren	Poniatowski	MS	University of Minnesota										
AEI2016	Evaluation of a Multispecialty, Self-Directed, Simulation-based Learning Program	Original	no	no	Deborah	Rooney	PhD	University of Michigan			X	X						
AEI2016	Faculty perceptions of barriers to completing surgical resident assessments: A multi-institutional qualitative needs assessment	Original	no	no	Laura	Mazer	MD	Stanford University			X	X						
AEI2016	Gelatin paravertebral spine model – A practical design for training general surgery resident's basic skills in placement of a continuous infusion catheter	Original	no	no	Shrunti	Sevak	MD	Beaumont Health System			X	X						
AEI2016	Innovations In 3D Modeling And Surgical Planning In General Surgery	Work in Progress	no	no	Ciro	Andolfi	MD	University of Chicago			X	X	X					
AEI2016	Interprofessional Collaboration Facilitates Enhancements of a Preparation for Internship Curriculum	Original	no	no	Brent	Bauman	MD	University of Minnesota	X		X	X						
AEI2016	Inter-professional Education and Simulation to Improve Knowledge Retention of CAUTI	Original	no	no	Paula	Grailing	DNP, RN	INOVA Health System	X		X	X						

AEI Consortium Abstracts Since 2008

Abstracts by Year

Please note, TBD=To Be Determined and NA=Not Available

Abstract Type Key: Descriptive, NA, Non-AEI, Original, Research Idea and Work in Progress (2008-2017); Innovative Techniques, Original Paper and Poster Presentation (2018-Current)

Abstract Year	Abstract Title	Type of Abstract	Multi-Institutional Study	Manuscript Published in Surgery	First Name	Last Name	Credentials	Institute	Categories of Research									
									Curriculum Development	Teaching Methods	Learner Evaluations	Program Evaluations	Patient Safety	Surgical Outcomes	Investigation	Education	In-Development	Other
AEI2016	Loss of skill retention of Intra-osseous catheter placement among residents over time	Original	no	no	Rex	Chung	MD	Cedars Sinai	X		X	X						
AEI2016	Measuring the Tools of the Future: How Will We Tell the Effectiveness of Training	Original	yes	no	Anthony	LaPorta	MD, FACS	Rocky Vista University School of Medicine	X		X	X	X					
AEI2016	Mental Practice Enhances Retention of Simulator-Acquired Surgical Skill: Results of a Randomized Controlled Trial	Original	no	no	Dimitrios	Stefanidis	MD, PhD, FACS, FASMBS	Carolinas Healthcare System										
AEI2016	Modern Paradigms in Surgical Training – An International Qualitative Study to Determine Factors Affecting the Implementation of Simulation-based Training Programmes	Original	no	no	Shady	Hosny	MB, BS, BSc(Hons), MRCS	Imperial College London	X					X				
AEI2016	Oh, The Stress of Simulation! Role of Skin Conductance as A Stress Indicator in Surgical Education.	Work in Progress	no	no	Monali	Mohan	MD	Mayo Clinic Rochester			X	X						
AEI2016	Operation room fire simulation study effectively prepares operating room staff for fire	Original	no	no	Tomokazu	Kishiki	MD, PhD	Grainger/NorthShore										
AEI2016	Patient-Centered Communication for Surgical Residents: A Simulation-Based Curriculum	Original	no	no	Amber	Trickey	PhD, MS	INOVA Health System		X	X	X						
AEI2016	Peroral Endoscopic Myotomy Curriculum For The Treatment Of Achalasia And Esophageal Motility Disorders Using Simulation & Animal Platforms	Original	no	no	Andrew	Wang	MD	Naval Med Ctr San Diego	X									
AEI2016	Pilot Testing of a Simulation Based Model for Suture Repair of Laparoscopic Bleeding	Original	no	no	James	McClintic	MS	UTMB			X	X						
AEI2016	Pooling Resources: Creation of a Surgical Bootcamp that Straddles Specialty Lines	Original	no	no	Sharon	Bachman	MD, FACS	INOVA Health System			X	X						
AEI2016	Safe Adoption Of Robotic Training In Residency With a Fundamentals Of Robotic Surgery Curriculum -A 5 Year Experience In a Military Institution	Original	no	no	Alwin	Albert	MD	Naval Med Ctr San Diego	X		X	X						
AEI2016	Self/Peer Resident Assessment of the Basics of Open Laparotomy Training (BOLT) on a Simulated Abdominal Model	Original	no	no	Jessica	Fazendin	MD	Drexel University			X	X						
AEI2016	Serving Up Your Service: How Can YOU Assess Your Trainees?	Descriptive	no	no	Becca	Gas	BS	Mayo Clinic Rochester	X		X	X						
AEI2016	Solid, cystic and tubular – A compact gelatin-training model for teaching basic skills in ultrasound-guided procedures to general surgery residents	Original	no	no	Shruni	Sevak	MD	Beaumont Health System			X	X						
AEI2016	STOMP- Skills Training for Operational Medicine Providers: Design and Implementation of a Novel Comprehensive Skills-Based Curriculum for U.S. Navy Interns	Original	no	no	Travis	Polk	MD, FACS	Naval Med Ctr Portsmouth	X									
AEI2016	The Effects of a Retention Interval and Refresher Session on Intracorporeal Suturing Skill and Mental Workload	Original	yes	yes	Rebecca	Britt	MD, FACS	EVMS			X	X						
AEI2016	Trainee Impressions of Instructor Expertise in Surgical Simulation and Education	Original	no	no	TK	Pandian	MD, MPH	Mayo Clinic Rochester	X		X	X						
AEI2016	Using Heart Rate Variability to Assess Acute Stress During Simulated Trauma Resuscitation	Original	no	no	Shabnam	Hafiz	MD, MPH	Medstar/SITEL										
AEI2016	Validation and A New Pump for the "Live Cadaver" Exercise for Improving Trauma Team Training	Original	no	no	Richard	Pearl	MD, FACS, FRCS	UIC										
AEI2016	Video Analysis of Path Length in Basic Skills Training: A Way to Expand the Value and Use of Basic Skills BlackBox Training?	Original	yes	no	Lars	Enochsson	MD, PhD	Karolinska University Hospital			X	X

Abstract Year	Abstract Title	Type of Abstract	Multi-Institutional Study	Manuscript Published in Surgery	First Name	Last Name	Credentials	Institute	Categories of Research									
									Curriculum Development	Teaching Methods	Learner Evaluations	Program Evaluations	Patient Safety	Surgical Outcomes	Investigation	Education	In-Development	Other
AEI2017	A Comparison of Rotation-Integration and Block-time Integration of the ACS/APDS Surgical Skills Curriculum	Work in Progress	no	no	George	Ormond	MD	University of Vermont	X	X	X	X						
AEI2017	A Comprehensive Surgical Simulation Laboratory Improves Student Preparation for Surgical Internship	Descriptive	no	no	Andrew	Sundin	MD	University of Minnesota	X	X	X							
AEI2017	A novel platform for simulation in transanal robotic surgery	Descriptive	no	no	Ciro	Andolfi	MD	University of Chicago	X									
AEI2017	AEI best practices: A review of 2011 to present	Original	yes	yes	James	Cooke	MD	University of Michigan										
AEI2017	Bridging the Gap between Acute Care Surgeons and Endovascular Techniques: Simulation Training for Resuscitative Endovascular Balloon Occlusion of the Aorta (REBOA)	Original	yes	no	Megan	Brenner	MD, MS, FACS	University of Maryland										
AEI2017	Conflicting Opinions on the Use of Simulation for Nontechnical Skill Development at the Onset of Residency Training	Original	no	no	Natalie	Wagner	BSc(Hons)	McMaster University	X	X								
AEI2017	Designing and Evaluating an Interpersonal and Communication Skills Curriculum Incorporating ACGME General Surgery Milestones: Opportunities and Challenges in Simulation-Based Approaches	Work in Progress	no	no	Paul	Huffstutter	MD, FACS	UTCAMS	X	X	X	X						
AEI2017	Development of a Breast Reconstruction Training Environment	Original	no	no	Alex	Viezel-Mathieu	MD, BS	McGill University										
AEI2017	Development of Amputation Training Model for Surgical Skills Workshops	Original	no	no	Shumaila	Anwer	MS	University of Minnesota		X	X							
AEI2017	Development of In-Situ Simulation Lab for Training Gynecology Residents in Basic Laparoscopic and Hysteroscopic Operative Skills	Descriptive	no	no	Maria	Molina	MD	San Antonio Military Medical Center	X	X								
AEI2017	Effects of a Surgical Simulation Course on Undergraduate Surgical Clerkship Performance	Original	no	no	Michael	Tieman	MD, FACS	Rocky Vista University										
AEI2017	First Year of Virtual Grand Rounds: A Report from the Technologies and Simulation	Original	yes	no	Ivan	George		Anne Arundel										
AEI2017	Improving cross specialty recognition of atypical skin lesions through experiential learning	Other	no	no	Jeffrey	Garon	MD, BA	Conemaugh Memorial Hospital	X	X			X					
AEI2017	In Situ Multidisciplinary Obstetric Team Training for Emergencies: Maximizing Training Opportunities while Sensing Latent Threats to Patient Safety	Original	no	no	Joy	Greer	RN, BSN	Naval Hospital Portsmouth					X					
AEI2017	Increasing survival of healthcare personnel during an active shooter attack: Establishing Face Validity of an interactive simulation training as a better teaching modality	Work in Progress	no	no	Marcos	Molina	MD	University of Minnesota	X									
AEI2017	Instituting a Surgical Skills Competition Increases Technical Performance of Surgical Clerkship Students Over Time	Original	no	no	Harold	Leraas	MA, BS	Duke University	X									
AEI2017	Intensive, Integrated Pre-clinical Surgical Immersion Curriculum for Early Exposure to Surgery	Work in Progress	no	no	Brittany	Hasty	MD	Stanford University	X		X							
AEI2017	International Delphi Consensus on Critical Components of the Safe Surgical Ward: Identification of Factors for Educational Interventions and Quality Assessment	Original	no	no	Yasmin	Hassen	MB, BS, BSc(Hons), MRCS	Imperial College London					X

AEI2017	Interprofessional Simulations to Inform Perioperative Facility Planning and Design	Original	no	no	Kristoffel	Dumon	MD, FACS	Penn Medical Simulation Center										
AEI2017	Macrosystem Simulations in a New Hospital Facility	Original	no	no	Gladys	Fernandez	MD	Baystate Health										
AEI2017	Mentorless Training Program Results in Significant Improvement in Students' Surgical Skills	Research Idea	no	no	Michelle	Leong	BS	Grainger/Northshore		X								
AEI2017	Modeling Operative Thinking in a Simulation-Based Continuing Medical Education Course on Laparoscopic Hernia Repair	Original	no	no	Andrew	Ruis	PhD	University of Wisconsin		X								
AEI2017	Multiple Simulation Modalities Enhanced a Preparation for Surgical Internship Course	Original	no	no	Brent	Bauman	MD	University of Minnesota	X	X								
AEI2017	Operating Room Crisis Checklists: Development of Simulation Training	Work in Progress	no	no	Amber	Trickey	PhD, MS	INOVA	X				X					
AEI2017	Optimizing Simulation-Based Interdisciplinary Teamwork Training for Medical and Nursing Students and Evaluating Its Long-term Effects	Original	no	no	Darlene	Bourgeois	MSN, RN	Lahey Clinic										
AEI2017	Out of the OR and Before the Bench: How to Prepare Surgical Residents for their First Interaction with Attorneys	Descriptive	no	no	Alessandra	Landmann	MD	University of Oklahoma HSC					X					
AEI2017	Outcomes Following Introduction of a Standardized Process To Improve Transitions of Care in a Surgical Practice	Original	no	no	Yazan	AlJamal	MD	Mayo Clinic Rochester	X			X	X	X				
AEI2017	Performance on a Physical Endoscopic Simulation Platform Predicts Performance on the Fundamentals of Endoscopic Surgery (FES) Manual Skills Exam	Original	yes	no	Zachary	Taylor	DO	USU	X		X							
AEI2017	Personalized video feedback to improve "at home" pre-residency preparation of surgical interns	Original	yes	yes	Nimesh	Naik	MD	Mayo Clinic Rochester										
AEI2017	Point-of-care Bedside Ultrasound Training: Expansion within a Surgical Internship Preparation Curriculum	Descriptive	no	no	Victor	Vakayil	MB, BS	University of Minnesota	X	X	X	X						
AEI2017	Proficiency gain curve and skills retention at a virtual simulator for robot-assisted surgery: a blind study	Original	no	no	Andrea	Moglia	PhD	EndoCAS										
AEI2017	Sepsis Training using Interactive Virtual Reality (IVR)	Original	yes	no	Naveen Kumar	Sankaran	MS	University of Illinois-Urbana	X	X	X	X						
AEI2017	Simulated Trauma and Procedural Training in a Collaborative Human Cadaver Lab Integrating Emergency Medicine and General Surgery Residents: Effectiveness and Outcomes	Original	yes	no	Joe	Esparaz	MD	University of Illinois, Peoria		X								
AEI2017	Simulation Training Improves Surgical Resident Comfort with Airway Management	Original	no	no	Kaitlin	Ritter	MD	Cleveland Clinic	X									
AEI2017	Simulation-based Multiple Mini-interviews vs. Traditional Interviews in the Postgraduate Year 1 Cardiac Surgery Residency Program Selection Process	Original	no	no	Marina	Ibrahim	MD	McGill University			X							
AEI2017	Successful Computerizing the ATLS® Post-Test: Outcome of an AEI Multisite Study	Original	yes	no	Britany	Telford	BS	CAMLS	X		X							
AEI2017	Successful Implementation and Improvements Identified with in-situ Simulated Resuscitation Cases	Work in Progress	no	no	Robert	Doiron	MD	UC Davis					X					
AEI2017	Team Based Simulation: Another Tool to Teach Operating Room Fire Safety	Descriptive	yes	no	Vanita	Ahuja	MD, MPH, MBA	Lifebridge Health Sinal Hospital					X					
AEI2017	Team-based Simulations for New Surgeons: Does Early and Often make a Difference?	Original	yes	yes	Kareem	AbdelFattah	MD	UT Southwestern	X

									Curriculum Development	Teaching Methods	Learner Evaluations	Program Evaluations	Patient Safety	Surgical Outcomes	Investigation	Education	In-Development	Other
AEI2017	The Development and Implementation of a Pressurized Cadaver Simulation Curriculum	Descriptive	no	no	Michael	Minneti	BS	USC	X		X							
AEI2017	The Translation of Simulation-Based Sharps Safety Education to Clinical Surgical Practices	Work in Progress	no	no	Melinda	Klar	RN	UTCAMS		X		X	X					
AEI2017	The Use of Virtual Reality Simulators in Laparoscopic Colectomy Training	Original	no	no	Konstantinos	Mavrantonis	MD, PhD, FACS	Hygeia Hospital	X	X		X						
AEI2017	Time Crunch: Increasing the Efficiency of Technical Surgical Skill Assessment via Brief Video Clips	Original	yes	yes	John	Sawyer	BS	Medical University of South Carolina										
AEI2017	Trauma Team Performance Training: Development and Pilot of and Interprofessional Monthly Simulation on the Trauma Service	Work in Progress	no	no	Tess	Aulet	MD	University of Vermont	X									
AEI2017	Unified Field Theory of Health Care Simulation	Descriptive	no	no	David	Hananel	BS	UW-CREST										
AEI2017	Using 3-D Anatomy Models Facilitates Cross-sectional Radiological Anatomy Learning for Surgery Residents: a randomized controlled crossover trial	Work in Progress	no	no	Francisco	Cardenas	MD	Mayo Clinic Rochester	X	X	X							
AEI2017	Using Epistemic Network Analysis to Identify Targets for Educational Interventions in Trauma Team Communication	Original	no	yes	Sarah	Sullivan	PhD	University of Wisconsin			X							
AEI2017	Value-based Simulator Selection: The Creation and Evaluation of the Simulator Value Index Tool	Original	yes	yes	Deborah	Rooney	PhD	University of Michigan										
AEI2018	A Preclinical Cadaveric Evaluation of the Resuscitative Endovascular Balloon Occlusion of the Aorta (REBOA) Catheter	Poster Presentation	no	no	Zachary	Miller	BS	University of Minnesota					X					
AEI2018	A Robotic Surgical Curriculum for Chief Resident Exposure and Experience	Poster Presentation	no	no	Michael	Meara	MD, FACS	The Ohio State University Wexner Medical Center	X	X		X						
AEI2018	ACS Fundamentals of Surgery Curriculum®: Using Cognitive Simulation to Develop Critical Thinking Skills in Residents	Poster Presentation	no	no	James	Hebert	MD, FACS	American College of Surgeons	X	X								
AEI2018	Assessing Quality and Resources During Campus-wide Simulation Integration	Poster Presentation	no	no	Joshua	Weis	MD	UT Southwestern	X									
AEI2018	Calculating the Return on Investment – Quantifying the Value of Simulation Training for Housekeeping	Original Paper	yes	no	Dmitry	Nepomnayshy	MD	Lahey Clinic				X						
AEI2018	Challenges for Maintaining Professionalism When Faced with Patient Discrimination and Harassment by Patients/Caregivers	Innovative Techniques	no	no	Melissa	Cappaert	MA	University of Chicago Medicine	X									
AEI2018	Competence-based Mastery Learning for Chest Tube Placement: A Study of Anxiety, Confidence, and Performance	Original Paper	no	yes	Andrew	Velic	BS	UWSMPH	X	X								
AEI2018	Current Research Priorities in Surgical Simulation	Original Paper	yes	yes	Nicholas	Anton	MS	Indiana University School of Medicine										Needs Assessment
AEI2018	Development and Early Evaluation of a Web-based Pediatric Craniofacial Simulation Course Utilizing a 3D-Printed Surgical Simulator	Innovative Techniques	no	no	Chelsea	Reighard	MS	University of Michigan	X	X		X						
AEI2018	Development of a Disaster Preparedness Interprofessional Education (IPE) Program for Health Profession Students	Poster Presentation	no	no	Edward	Jasper	MD, MPH	Thomas Jefferson University	X									
AEI2018	Development of a sustainable simulation-based training curriculum in a community-based teaching program: scenarios, benefits, and implications.	Poster Presentation	yes	no	Vanita	Ahuja	MD, MPH, MBA	Sinai Hospital of Baltimore		X			X

Abstract Type Key: Descriptive, NA, Non-AEI, Original, Research Idea and Work in Progress (2008-2017); Innovative Techniques, Original Paper and Poster Presentation (2018-Current)

Abstract Year	Abstract Title	Type of Abstract	Multi-Institutional Study	Manuscript Published in Surgery	First Name	Last Name	Credentials	Institute	Categories of Research										
									Curriculum Development	Teaching Methods	Learner Evaluations	Program Evaluations	Patient Safety	Surgical Outcomes	Investigation	Education	In-Development	Other	
AEI2018	Development, Implementation, and Evaluation of a Competency-Based Urology Bootcamp for Training First-year Urology Residents, A Prospective Cohort Pilot Study with Historical Controls	Innovative Techniques	yes	no	Yuding	Wang	MD	McMaster University	X										
AEI2018	Does Participation in Case-based Cadaver Labs that Include Both Meta-cognitive and Technical Skills Correlate with Trainees' Performance on Surgical Exams and Preceptors' Evaluations?	Poster Presentation	no	no	Susan	Haynes	MS MEd	Virginia Commonwealth University	X										
AEI2018	Effects of Sequential, Supervised Simulation Training on the Acquisition and Long-term Retention of Vascular Surgical Skills	Innovative Techniques	no	no	Cara	Lyle	MD	West Virginia University Hospitals	X	X				X					
AEI2018	Efficacy of Simulation-Based Training for Laparoscopic Intraoperative Cholangiography	Innovative Techniques	no	no	Tyler	Sbrocchi	MD	Riverside Methodist Hospital	X	X									
AEI2018	Enhancing Computer-Based Central Line Training for Surgery Residents Across Two Training Programs	Poster Presentation	no	no	Jenny	Held	MD	Naval Medical Center Portsmouth		X									
AEI2018	Evaluating the Quality of Video-taped Debriefings after Simulation Team Training	Original Paper	yes	yes	John	Paige	MD	LSUHSC SCHOOL OF MEDICINE		X									
AEI2018	Facilitating Accurate Team Self-Assessments: Can Simulation Play a Role?	Original Paper	yes	no	Aimee	Gardner	PhD	Baylor College of Medicine		X	X								Teamwork
AEI2018	Force during Simulation-Based Orotracheal Intubation is predictive of Clinical Competency	Poster Presentation	no	no	Qasim	Al Abri	MD	McGill University											Objective Assessment
AEI2018	Implementation and Evaluation of a Comprehensive Proficiency-Based Upper GI Curriculum: A Multi-Institutional Canadian Experience	Poster Presentation	yes	no	Boris	Zevin	MD, PhD, FRCGS	Queen's University	X	X									
AEI2018	Implementation of Institution-wide Central Venous Catheter Insertion Certification Program	Poster Presentation	no	no	Julie	Hartman	DC, MS	University of Iowa Center for Procedural Skills and Simulation						X					
AEI2018	Knot Tying: Transforming Novice to Proficient Performance in less than 60 minutes. Can it be done?	Poster Presentation	no	no	Mohamed	Baloul	MBBS	Mayo Clinic Rochester			X	X							
AEI2018	Laparoscopic Peg Transfer Simulation Tasks with Two Difficulty Levels: Analysis of Two Years Interns' Performance and Workload	Original Paper	yes	no	Amro	Abdelrahman	MBBS	Mayo Clinic Rochester				X							
AEI2018	Laparoscopic Repair of Perforated Peptic Ulcers: A Low Fidelity Simulator and Training Curriculum for Surgical Skill Development	Poster Presentation	no	no	Kristen	Cox		University of Minnesota		X									
AEI2018	Low Fidelity Materials Yield High Resolution Assessment of Anatomical Knowledge...Really?	Original Paper	no	yes	Humza	Saleem	MD	Mayo Clinic Rochester	X			X							
AEI2018	Mental Skills Training Limits Operative Skill Decay Under Stressful Conditions: Results of a Multi-Site Randomized Controlled Study	Poster Presentation	yes	no	Nicholas	Anton	MS	Indiana University School of Medicine	X										
AEI2018	Michigan Hip Curriculum: Early evaluation of a new curriculum for diagnosis of developmental hip dysplasia	Innovative Techniques	no	no	Deborah	Rooney	PhD	University of Michigan	X										
AEI2018	Microsurgical Skills Training Course: The Effect on Microsurgery Trainees' Confidence and Workload	Poster Presentation	no	no	Anita	Mohan	MBBS	Mayo Clinic Rochester				X							
AEI2018	Modernizing educational paradigms by integrating surgical simulation across surgical specialties	Poster Presentation	no	no	Nicole	Siparsky	MD	Rush University Medical Center	X										
AEI2018	One's SIM trash is another's SIM treasure: SimPortal experience in the building of a percutaneous gastrostomy (PEG) skill trainer.	Poster Presentation	no	no	Marcos	Molina	MD	University of Minnesota			X
