What I Wish I Knew When I Became Chapter President

Setting the Theme for the Year

Joshua M.V. Mammen MD PhD

5/6/2017
Key Point

- Every Chapter is Different
  - History
  - Geography
  - Demographics
  - Identity
Kansas Chapter

- Rural State
- Two major cities
- One academic medical center
- Two general surgery residency programs, one set of non-general surgery residency programs
- One chapter (encompasses the entire state)
- Several well known ACS leaders as members
Plan Ahead

- Start as soon as you are elected

- To do list for President-elect year
  - Learn the history
  - Previous challenges and failures (tap into resource of past presidents)
  - Speak to active members (and very inactive members)
Plan Ahead

- National ACS
  - Look at the website
  - Read the Bulletin
  - Attend the Leadership and Advocacy Summit
  - Attend the Clinical Congress
Set the Vision (and the Plan)

- Does not have to be a vision statement, but have to be able to put into words

- Buy in from the Council

- Have the plan set prior to president year
What I did? (and Warning)

- May only make sense in the context of our chapter
- One day meeting to facilitate greater attendance by busy surgeons
- Heavy resident focus at the meeting (half the meeting)
- Non-scientific experiential presentation
- New initiates dinner after Clinical Congress
- Make local advocacy a focus: advocacy day
Greatest Regret
Summary

- Start Early
- Make sure it is relevant to your context
- Align with the national focus
