NTDB BIBLIOGRAPHY

The following bibliography includes citations found through PubMed searches, as well as those supplied by NTDB researchers in response to follow up surveys and e-mails. The list below includes publications, articles in press, and presentations in which NTDB is mentioned. This list is not exhaustive. If you have an NTDB-related publication that is not listed below, please provide the citation to ntdb@facs.org.

Meredith JW, Kilgo PD, Osler T. A fresh set of survival risk ratios derived from incidents in the National Trauma Data Bank from which the ICISS may be calculated. *J Trauma*. 2003; Nov;55(5):924-32.

Millham FH, LaMorte WW. Factors associated with mortality in trauma: Re-evaluation of the TRISS method using the National Trauma Data Bank. *J Trauma*. 2004; May;56(5):1090-6.

Friese RS, Shafi S, Gentilello L. Pulmonary artery catheter is associated with reduced mortality in severely injured patients: A National Trauma Data Bank analysis of 53,312 Patients. Presented (poster) at the annual meeting of the American Association for the Surgery of Trauma, Maui, HI, September 2004.

Minei JP, Shafi S, Gentilello L. Gender differences in survival may be due to a lower risk of complications in females: An analysis of the National Trauma Data Bank. Presented (poster) at the annual meeting of the American Association for the Surgery of Trauma, Maui, HI, September 2004.

Fantus RJ, Fildes J. NTDB data points: Click click--you're dead? *Bull Am Coll Surg.* 2005; May;90(5):44.

Wright, JL, Nathens, AB, Rivara, FP, Wessells, H. Renal and extrarenal predictors of nephrectomy from the National Trauma Data Bank (NTDB).  *J Urol.* 2006; Feb;202(2):212-5; quiz A45.

Burd RS, Jang TS, Nair SS. Predicting Hospital Mortality Among Injured Children Using a National Trauma Database.  *J Trauma.* 2006; Apr;60(4):792-801.

Kilgo PD, Meredith JW, Osler TM. Incorporating recent advances to make the TRISS approach universally available.  *J Trauma.* 2006; May;60(5):1002-8; discussion 1008-9.

2006

Fantus RJ, Fantus J. NTDB data points: The university of injury.. Bull Am Coll Surg. 2007; Sep;92(9):60.

McGwin G Jr, George RL, Cross JM, Rue LW. Improving the ability to predict mortality among burn patients. Burns. 2007; Sep 13.

Clark DE, Hannan EL, Raudenbush SW. Using a hierarchical model to estimate risk-adjusted mortality for hospitals not included in the reference sample. *Health Serv Res*. 2010; Apr;45(2):577-87.

Schluter PJ. The Trauma and Injury Severity Score (TRISS) revised. *Injury*. 2010; Sep 17.

Cowperthwaite MC, Burnett MG. Treatment course and outcomes following drug and alcohol-related traumatic injuries. *J Trauma Manag Outcomes*. 2011; Jan 20;5:3.

Schulter PJ. The Trauma and Injury Severity Score (TRISS) revised. *Injury*. 2011; Jan;42(1):90-6.

Cove R. Excluding isolated hip fractures from the National Trauma Data Bank would be a missed opportunity. *J Trauma*. 2011 Jun;70(6):1578.

Deibert CM, Glassberg KI, Spencer BA. Repair of pediatric bladder rupture improves survival: results from the National Trauma Data Bank. *J Pediatr Surg* 2012; Sep;47(9):1677-81.

Haider AH. Improving the quality of science arising from the NTDB: We can do this! *J Trauma Acute Care Surg*. 2013; Feb;74(2):352-3.

2014
