

## GSV Gap Analysis: Implementation Guide & Course

Before you begin implementing the GSV Program at your hospital, we recommend that you perform a gap analysis to determine what state your hospital is in with regards to the GSV Standards.

It is okay if you don't have any of the standards met yet. The gap analysis is meant to function as a selfassessment and a way of determining your hospital's baseline before you begin the course. If you have already made progress towards some of the standards, the gap analysis will help you identify the areas that you need to focus on to make sure you are verification-ready when you apply.

| Standard 1.1: Letter of Support   | The institution must solicit a letter of support from the hospital leadership (for example,<br>CEO or equivalent) confirming their support for the implementation of the<br>Geriatric Surgery Verification (GSV) Program. The intent of this standard is to describe and<br>demonstrate leadership support and commitment for the GSV Program at the hospital. |  |
|---|--|--|
| Is the institution currently meet   | ing this standard:   |  |
| □ Yes   |  |  |
| □ No  |  |  |
| Who will <u>lead</u> completion of the  | e task:  |  |
|   |  |  |
| Which of these tasks have already been completed?   |  |  |
| Introduce the GSV Program t   | o key stakeholders at your institution   |  |
| Conduct an initial meeting to discuss the GSV Program   |  |  |
| Devise a plan on how the hospital intends to comply with the GSV Program Standards              |  |  |
| When do you anticipate achievi  | ng compliance with the standard?   |  |
| □ 1-6 Months □ 6-3  | 12 Months 🛛 12-18 Months 🗍 18-24 Months  |  |
| <b>Documentation needed for compliance (FOR VERIFICATION PURPOSES):</b><br>PRQ Upload           |  |  |
| □ A Letter of Support from hospital administration confirming their support for the GSV Program |  |  |
| Notes/Questions for GSV Team:   |  |  |
|   |  |  |
|   |  |  |
|   |  |  |

| Standard 2.1: Geriatric Surgery<br>Director  | The institution must have a Geriatric Surgery Director. The role must be fulfilled by a physician (surgeon, preferably) and is not intended to require a dedicated, full-time equivalent (FTE). The official job description must reflect the responsibilities outlined below and support dedicated time and compensation commensurate with duties assigned.<br>*Refer to the Optimal Resources for Geriatric Surgery Standards Manual for the list of Geriatric Surgery Director Responsibilities. |  |
|--|---|--|
| Is the institution currently meet  | ing this standard:  |  |
| □ Yes  |   |  |
| 🗆 No   |   |  |
| Who will <u>lead</u> completion of the task:   |   |  |
|  |   |  |
| Which of these tasks have you a  | ready completed?  |  |
| □ Identify a Geriatric Surgery Director  |   |  |
| Review and discuss Geriatric S   |   |  |
| Write a job description for the Geriatric Surgery Director   |   |  |
| [Person Responsible if not the lead:]  |   |  |
| □ Ensure the director has completed at least 6 hours of CME per year   |   |  |
| When do you anticipate achievi   | ng compliance with the standard?  |  |
| • •  | 6-12 Months 12-18 Months 18-24 Months   |  |
|  |   |  |
| <b>Documentation needed for com</b><br><i>PRQ Upload</i>   | pliance (FOR VERIFICATION PURPOSES):  |  |
| $\square$ A job description of the Geria   | tric Surgery Director   |  |
| Geriatric Surgery Director has completed at least 6 hours of CME annually on topics pertinent to geriatric surgery |   |  |
| Notes/Questions for GSV Team:  |   |  |
|  |   |  |
|  |   |  |
|  |   |  |

| Standard 2.2: Geriatric Surgery<br>Coordinator  | The institution must have a Geriatric Surgery Coordinator. The role is not intended to be<br>fulfilled by a dedicated FTE. The official job description must reflect the responsibilities<br>outlined below and support dedicated time and compensation commensurate with duties<br>assigned.<br>*Refer to the Optimal Resources for Geriatric Surgery Standards Manual for the list of<br>Geriatric Surgery Coordinator Responsibilities. |  |  |
|---|--|--|--|
| Is the institution currently meet   | ing this standard:   |  |  |
| □ Yes   |  |  |  |
| □ No  |  |  |  |
| Who will <u>lead</u> completion of the  | e task:  |  |  |
|   |  |  |  |
| Which of these tasks have already been completed?                                     |  |  |  |
| Identify a Geriatric Surgery Control  |  |  |  |
| Review and discuss Geriatric Surgery Coordinator responsibilities                     |  |  |  |
| Write a job description for the Geriatric Surgery Coordinator                         |  |  |  |
| [Person Responsible if not the lead:]   |  |  |  |
| When do you anticipate achieving compliance with the standard?                        |  |  |  |
| □ 1-6 Months □ 6-   | 12 Months 🛛 12-18 Months 🗌 18-24 Months  |  |  |
| <b>Documentation needed for compliance (FOR VERIFICATION PURPOSES):</b><br>PRQ Upload |  |  |  |

| Standard 5.8: Interdisciplinary<br>Input or Conference for<br>Elective, High-Risk Patients  | In the elective setting, all patients identified as high risk based on the geriatric vulnerability screens (see Standard 5.6 for further details) must be evaluated with interdisciplinary input after the implementation of focused management plans (see Standard 5.7 for further details) and before surgery to reassess the indications, risks, and benefits of the proposed operation. This may be conducted in the form of an interdisciplinary conference or by obtaining input from at least the following health professionals: Surgery, Anesthesia, Nursing, Case management, care transitions, or social work, Health care provider with geriatric expertise* |  |

**Instructions:** Use the below checklist to ensure you have all the required components to move forward with a site visit. All hospitals must complete a chart review and process, protocol and policy review on the day of the site visit. To ensure HIPAA compliance, the items in red (and any materials that may contain patient-sensitive information) must only be shared and reviewed on-site. Such documents must not be uploaded electronically for review.

|   | Process, Protocol, and Policy's needed for<br>compliance<br>(PRQ Uploads)  | Medical Record (EMR) components needed for<br>compliance  |

| Standard 5.6: Geriatric<br>Vulnerability Screens  | □ Geriatric vulnerability screening tools  | Results of screens and areas in which patient<br>screened positive should be easily accessible<br>in the patient's EMR - <i>template available in</i><br><i>module 4</i>   |
| Standard 5.7:<br>Management Plan for<br>Patients with Positive<br>Geriatric Vulnerability<br>Screens    | N/A  | Focused management plans directed at positive geriatric vulnerability screens  |
| Standard 5.8:<br>Interdisciplinary Input<br>or Conference for<br>Elective, High-Risk<br>Patients        | <ul> <li>Process, protocol, or policy in place to ensure mandatory health professionals are contributing preoperative input to all high-risk patients</li> <li>Process, protocol, or policy in place to communicate recommendations to patients and their families/caregivers and other clinicians responsible for the care of patients described</li> </ul>   | <ul> <li>Interdisciplinary recommendations - <i>template</i><br/>available in module 5</li> <li>Any updates or changes made to patient's<br/>surgical plan of action - <i>templates available in</i><br/>module 5</li> </ul> |
| Standard 5.9: Surgeon-<br>PCP Communication<br>for Elective, High-Risk<br>Patients                      | Process, protocol, or policy in place detailing<br>the communication structure between surgeon<br>and PCP regarding goals of care and decision-<br>making discussion for elective, high-risk<br>patients   | Documentation that the surgeon<br>preoperatively communicated the goals of<br>care and decision-making discussion with the<br>patient's preferred PCP - <i>template available in<br/>module 5</i>                            |
| Standard 5.10: Return<br>of Personal Sensory<br>Equipment   | Process, protocol, or policy in place<br>demonstrating that surgical inpatients are<br>guaranteed the safe storage and prompt return<br>of personal equipment during and after<br>surgery, respectively  | N/A  |
| Standard 5.11:<br>Inpatient Medication<br>Management  | <ul> <li>Process, protocol, or policy in place that<br/>ensures avoidance of potentially inappropriate<br/>medications as defined by the AGS Beers<br/>Criteria, particularly those commonly used in<br/>the perioperative period (for example,<br/>antiemetics, analgesics, antihistamines, and so<br/>on)</li> <li>Education materials given to providers<br/>regarding potentially inappropriate Beers<br/>medications</li> </ul> | N/A  |

| Standard 5.12: Opioid-<br>Sparing, Multimodality<br>Pain Management                    | Process, protocol, or policy in place outlining<br>opioid-sparing, multimodality pain<br>management strategies employed in the<br>postoperative setting  | N/A   |
|--|--|---|
| Standard 5.13:<br>Standardized<br>Postoperative Care                                   | <ul> <li>Process, protocol, or policy in place to address<br/>delirium, mobility and function, and nutrition<br/>and hydration</li> </ul>  | N/A   |
| Standard 5.14:<br>Standardized<br>Postoperative Care                                   | Process, protocol, or policy in place stating<br>high-risk older adults are cared for by an<br>interdisciplinary team with geriatric expertise<br>that communicates and documents<br>recommendations daily, commensurate with<br>the acuity of the patient   | Recommendations from members of the geriatric interdisciplinary care team   |
| Standard 5.15:<br>Revisiting Goals of<br>Care for ICU Patients                         | N/A  | <ul> <li>Revisited goals of care for patients with<br/>unexpected ICU admission every three days</li> </ul>   |
| Standard 5.16:<br>Assessment of<br>Geriatric<br>Vulnerabilities at<br>Discharge        | N/A  | <ul> <li>Results of geriatric vulnerability screens at discharge - <i>template available in module 4</i></li> <li>All identified deficits must be accompanied by a plan to address them</li> </ul>  |
| Standard 5.17:<br>Assessment of<br>Geriatric<br>Vulnerabilities at<br>Discharge        | <ul> <li>Process, protocol, or policy in place describing the review of the contents of the discharge summary with the patient</li> <li>Process, protocol, or policy in place for ensuring the information contained within the discharge documentation is distributed to the required individuals</li> </ul>  | <ul> <li>Documentation of any deficits found on predischarge screens along with plan of action to address each vulnerability - <i>template available in module 7</i></li> <li>Information regarding common geriatric syndromes, risk factors, and how to respond if it occurs after discharge</li> <li>Follow-up appointment with PCP and surgeon or information on how to schedule and time frame</li> </ul> |
| Standard 5.18:<br>Assessment of<br>Geriatric<br>Vulnerabilities at<br>Discharge        | <ul> <li>Process, protocol, or policy in place for<br/>establishing formal communication between<br/>the discharging institution and the receiving<br/>post-acute care facility and for measuring<br/>outcomes</li> <li>Provide list of discharge locations/post-acute<br/>care facilities associated with the institution<br/>and their publicly reported measures</li> </ul> | N/A   |
| Standard 6.1: Data<br>Collection and Review  | Minutes of the GSQC documenting the data<br>reviewed along with any trends or issues to be<br>addressed for care improvement* (Reviewed<br>on site visit day)  | N/A   |
| Standard 6.2: Data<br>Feedback to Frontline<br>Providers and Quality<br>Infrastructure | Process, protocol, or policy in place for<br>feedback of data collection and review to<br>frontline providers and institutional<br>leadership* (Reviewed on site visit day)  | N/A   |

| Standard 7.1: Geriatric<br>Surgery Quality<br>Improvement/Process<br>Improvement Project | Summary of the annual QI/PI project(s)<br>detailing the context, aims, purpose, results,<br>and implications for the project(s), including<br>the data informing need for this project.  | N/A |
|--|--|-----|
| Standard 8.1: Geriatric<br>Surgery Community<br>Outreach Project                         | Summary of the annual community outreach<br>project(s) detailing the context, aims, purpose,<br>results, and implications of the project(s),<br>including the data informing need for this<br>project - template available in module 8 | N/A |
| Standard 8.2: Geriatric<br>Education of Surgeons<br>and Advanced Practice<br>Providers   | Curriculum used to educate surgeons, critical<br>care physicians, and APPs on geriatric issues<br>such as eliciting patients' goals, screening for,<br>and management of high-risk geriatric<br>vulnerabilities                        | N/A |
| Standard 8.3: Geriatric<br>Education of Nurses   | <ul> <li>Curriculum used to educate nurses on geriatric<br/>issues such as eliciting patients' goals,<br/>screening for, and management of high-risk<br/>geriatric vulnerabilities</li> </ul>  | N/A |
| Standard 9.1:<br>[Optional]<br>Advancement of<br>Knowledge in Geriatric<br>Surgical Care | Scholarly research in progress or<br>documentation of published research related<br>to the improvement of quality in geriatric<br>surgery  | N/A |
