NCDB/RCRS Edits 3
v26 NCDB and RCRS 4
v27 NCDB and RCRS 32
RCRS Data Submission Requirements 60
Table 1: Minimum Required Fields for Submission to RCRS (v26 or v27) 60
Table 2: Minimum Required Fields for RCRS Processing or Acceptance (v26 or v27) 61
RCRS Fields Used in Quality Measures by Primary Site 64
Current NAACCR Record Layout Location 64

NCDB/RCRS Edits

The following pages show which edits are included in each of the edit sets selected by the NCDB and RCRS configuration files, and how NCDB scores those edits.

NCDB assigns scores to each edit that is failed by a submitted case. The scores are used to direct processing and to help select the better record when more than one record applies to the same case. Multiple records are submitted when a facility updates or corrects a previously reported item (a submission duplicate) or when a patient receives care from more than one accredited program (a clinical duplicate).

Scores for RCRS Submissions

200 = failure will cause the record to be rejected
1 = failure must be corrected by resubmission
0 = advisory that this edit should be corrected before NCDB submission
Blank = edit not in RCRS Submission Edit Set

Scores for NCDB Submissions

200 = failure will cause the record to be rejected For Call for Data
1 = failure must be corrected
0 = advisory that this edit should be corrected before NCDB submission; not a failure, but correction is recommended for accuracy

These edit sets and scores apply to cases submitted using NAACCR record layout v26a and v27:

NCDB submissions
RCRS submissions
RCRS Quality Measures

Case Status Definitions

Accepted – Record was accepted by RCRS and did not have any outstanding edits to address

Accepted Case yet Incomplete – Record was accepted by RCRS and contains outstanding edits. Total edit score for record is less than 200

Rejected – Record was not accepted by RCRS due to outstanding edits. Edit score for records is ≥ 200

RCRS Data Submission Requirements

Case records are abstracted following nationally standardized cancer registration coding rules. Participating cancer programs utilize existing commercial registry software programs to submit case records to RCRS in standard NAACCR record format. Records may be submitted at any time and in varying states of completeness. Table 1 provides the minimum data items required to submit case to RCRS. Table 2 provides the data items required to complete the case and load it into RCRS at initial submissions and updates.

Table 1: Minimum Required Fields for Submission to RCRS (v26 or v27)

Data Item	NAACCR Item #	Definition
Facility Identification Number	540	Identifies the facility reporting the case
Accession Number	550	Provides a unique identifier for the patient consisting of the year in which the patient was first seen at the reporting facility and the consecutive order in which the patient was abstracted.
Sequence Number	560	Indicates the sequence of malignant and non-malignant reportable neoplasms over the lifetime of the patient.
Archive FIN	3100	Identifies the facility that originally abstracted the case.
Sex	220	Identifies the sex of the patient.
Patient Zip Code at Dx	100	Identifies the postal code of the patient's address at diagnosis.
Date of Diagnosis	390	Records the date of initial diagnosis by a physician for the tumor being reported.
Primary Site	400	Identifies the primary site.
Tumor Histology	522	Identifies the microscopic anatomy of cells.
Tumor Behavior	523	Records the behavior of the tumor being reported. The fifth digit of the morphology code is the behavior code.
NAACCR Record Version	50	Identifies the current record layout version
Record Type	10	Identifies the record type: equal to “I” Incidence record (only coded, non-confidential items may be submitted)
Last Contact Date	1750	Records the date of last contact with the patient or the date of death.
Class of Case	610	Identifies whether the cancer program diagnosed and/or treated the reported case.
Date of 1st Contact	580	Records the date of first contact with the reporting facility for diagnosis and/or treatment of this cancer

Table 2: Minimum Required Fields for RCRS Processing or Acceptance (v26 or v27)

Data Item	NAACCR Item #	Definition
Facility Identification Number	540	Identifies the facility reporting the case
Accession Number	550	Provides a unique identifier for the patient consisting of the year in which the patient was first seen at the reporting facility and the consecutive order in which the patient was abstracted.
Sequence Number	560	Indicates the sequence of malignant and non-malignant reportable neoplasms over the lifetime of the patient.
Class of Case	610	Identifies whether the cancer program diagnosed and/or treated the reported case.
Archive FIN	3100	Identifies the facility that originally abstracted the case
Sex	220	Identifies the sex of the patient.
Birth Date	240	Identifies the date of birth of the patient.
Age	230	Records the age of the patient at his or her last birthday before diagnosis.
Race	160	Identifies the primary race of the person.
Spanish Origin	190	Identifies persons of Spanish or Hispanic origin.
Primary Payer at Diagnosis	630	Identifies the patient's primary payer/insurance carrier at the time of initial diagnosis and/or treatment
Postal Code at Diagnosis (Zip Code)	100	Identifies the postal code of the patient's address at diagnosis.
Date of Diagnosis	390	Records the date of initial diagnosis by a physician for the tumor being reported.
Primary Site	400	Identifies the primary site.
Tumor Histology	522	Identifies the microscopic anatomy of cells.
Tumor Behavior	523	Records the behavior of the tumor being reported. The fifth digit of the morphology code is the behavior code.
Tumor Size Summary	756	Records the largest dimension or diameter of the primary tumor.
Regional LN Examined	830	Records the total number of regional lymph nodes that were removed and examined by the pathologist.
Regional LN Positive	820	Records the exact number of regional lymph nodes examined by the pathologist and found to contain metastases.
AJCC TNM Clin T	1001	Evaluates the primary tumor (T) and reflects the tumor size and/or extension as recorded by the physician.
AJCC TNM Clin N	1002	Identifies the absence or presence of regional lymph node (N) metastasis and describes the extent of regional lymph node metastasis as recorded by the physician.
AJCC TNM Clin M	1003	Identifies the presence or absence of distant metastasis (M) as recorded by the physician.
AJCC TNM Clin Stage Group	1004	Identifies the anatomic extent of disease based on the T, N, and M elements as recorded by the physician.
AJCC TNM Path T	1011	Evaluates the primary tumor (T) and reflects the tumor size and/or extension as recorded by the physician.
AJCC TNM Path N	1012	Identifies the absence or presence of regional lymph node (N) metastasis and describes the extent of regional lymph node metastasis as recorded by the physician.
AJCC TNM Path M	1013	Identifies the presence or absence of distant metastasis (M) as recorded by the physician.
AJCC TNM Path Stage Group	1014	Identifies the anatomic extent of disease based on the T, N, and M elements as recorded by the physician.

AJCC TNM Post Therapy Path T	1021	Evaluates the primary tumor (T) and reflects the tumor size and/or extension of the tumor known following the completion of neoadjuvant therapy and planned post-neoadjuvant therapy surgical resection.
AJCC TNM Post Therapy Path N	1022	Identifies the absence or presence of regional lymph node (N) metastasis and describes the extent of lymph node metastasis of the tumor known following the completion of neoadjuvant therapy and planned post-neoadjuvant therapy surgical resection.
AJCC TNM Post Therapy Path M	1023	Identifies the presence or absence of distant metastasis (M) of the tumor as known in the clinical stage before initiation of neoadjuvant therapy and records this information following the completion of neoadjuvant therapy and planned post-neoadjuvant therapy surgical resection.
AJCC TNM Post Therapy Path Stage Group	1024	Identifies the anatomic extent of disease based on the T, N, and M category data items of the tumor known following the completion of neoadjuvant therapy and planned post-neoadjuvant therapy surgical resection.
AJCC TNM Post Therapy Clin T	1062	Evaluates the primary tumor (T) and reflects the tumor size and/or extension of the tumor known following the completion of neoadjuvant therapy and before planned post-neoadjuvant therapy surgical resection.
AJCC TNM Post Therapy Clin N	1064	Identifies the absence or presence of regional lymph node (N) metastasis and describes the extent of lymph node metastasis of the tumor known following the completion of neoadjuvant therapy and before planned post-neoadjuvant therapy surgical resection.
AJCC TNM Post Therapy Clin M	1066	Identifies the presence or absence of distant metastasis (M) of the tumor as known in the clinical stage before initiation of neoadjuvant therapy and records this information following the completion of neoadjuvant therapy and before planned post-neoadjuvant therapy surgical resection.
AJCC TNM Post Therapy Clin Stage Group	1067	Determines how much cancer remains after a patient is first treated with systemic (chemotherapy or hormone therapy) and/or radiation therapy prior to their surgery or where no surgery is performed.
HER2 Overall Summary	3855	Add: HER2 Overall Summary
Estrogen Receptor Summary	3827	Estrogen Receptor Assay
Progesterone Receptor Summary	3915	Progesterone Receptor Assay
Estrogen Receptor Percent Positive or Range	3826	Estrogen Receptor Assay
Progesterone Receptor Percent Positive or Range	3914	Progesterone Receptor Assay
Primary Site Surgery - Summary	1290	Records the surgical procedure(s) performed to the primary site.
Rx Summ—Surg 2023	1291	Records the surgical procedure(s) to the primary site performed at any facility starting with diagnosis year 2023+.
Primary Site Surgery - Facility	670	Records the surgical procedure(s) performed to the primary site at this facility.
Rx Hosp-Surg 2023	671	Records the surgical procedure(s) to the primary site performed at this facility starting with diagnosis year 2023+.
Cancer Directed Surgery Date	3170	Records the date of the most definitive surgical resection of the primary site performed as part of the first course of treatment.

Chemotherapy	1390	Records the type of chemotherapy administered as first course treatment at this and all other facilities. If chemotherapy was not administered, then this item records the reason it was not administered to the patient. Chemotherapy consists of a group of anticancer drugs that inhibit the reproduction of cancer cells by interfering with DNA synthesis and mitosis.
Chemotherapy Date	1220	Date of initiation of chemotherapy that is part of the first course of treatment.
Hormone Therapy	1400	Records the type of hormone therapy administered as first course treatment at this and all other facilities. If hormone therapy was not administered, then this item records the reason it was not administered to the patient. Hormone therapy consists of a group of drugs that may affect the long-term control of a cancer's growth. It is not usually used as a curative measure.
Hormone Therapy Date	1230	Date of initiation for hormone therapy that is part of the first course of treatment.
Phase I Radiation Treatment Modality	1506	Records the dominant modality of radiation therapy used to deliver the most clinically significant regional dose to the primary volume of interest during the first course of treatment.
Radiation Date	1210	Records the date on which the first radiation therapy for this diagnosis began at any facility that is part of the first course of treatment.
Reason for no radiation	1430	Records the reason that no regional radiation therapy was administered to the primary site.
Last Contact Date	1750	Records the date of last contact with the patient or the date of death.
Vital Status	1760	Records the vital status of the patient as of the date entered in *Date of Last Contact or Death*

RCRS Fields Used in Quality Measures by Primary Site

To view detailed specifications for each Quality Measure, the user must log into the password protected RCRS platform and navigate to the RCRS Library. Only users associated with the CoC accredited program and listed in the QPort Data Platform Contacts have access to the RCRS Library. To obtain access, please work with the CoC accredited program's QPort primary site contact person.
