Dear Representative Roe and Representative Schrier:

On behalf of the 23 undersigned organizations representing physicians and patients currently faced with the onset of Coronavirus Disease 2019 (COVID-19), we write in strong support of your legislation, the Immediate Relief for Rural Facilities and Providers Act, H.R. 6365, and we would urge Congress to include this legislation in the COVID-19 relief packages.

Physician practices across the country are making the necessary sacrifices to treat patients who are potentially infected with COVID-19 without question. As the majority of elective cases are being canceled or rescheduled, case volumes will plummet. During this time, physicians are trying to keep their businesses afloat including paying their staff and office expenses. The Immediate Relief for Rural Facilities and Providers Act would alleviate this unexpected and extreme strain on physician practices.

At very few moments in history has it been more relevant than today that physicians put the focus of care entirely on the patient, while being assured that their businesses remain stable during this difficult time. We applaud your leadership on the Immediate Relief for Rural Facilities and Providers Act and look forward to working with you to see it enacted.

Sincerely,
