

Dear ATLS Refresher Course Learner,

You will receive a course enrollment email from ATLS (no-reply@facs.org). In that email you will find a link to our online learning platform, <http://learning.facs.org>, as well as your account username.

When you follow that link and arrive at learning.facs.org, **do not create a new account**.

Please select **"log in"**, and, if applicable, use the **Forgot Password** feature to create a new password for your account.

Once this has been set, go back to learning.facs.org and log in with your username and the password you have created. You will find your ATLS Refresher Course in your "In-Progress Activities".

Please note:

- Completion of the following is **mandatory** before attending the live session (each will be marked as required)
 - Instructions
 - Participant Code of Conduct
 - ATLS 11 Demographic Survey
 - ATLS 11 Pre-Test
 - ATLS Manual
 - Video – Initial Assessment: Primary Survey
 - Video – Adult Orotracheal Intubation
 - Video – Finger and Tube Thoracostomy
 - Module – Navigation Instructions
 - Modules – 1, 2, 3, 4, 5, 6-1, 7-1, 7-2, and 8
- Completion of the other videos and modules is **optional**.
- The PDF version of the student manual you will find online in the course is for your personal use only; you agree not to share or otherwise distribute the file.
- Once you complete the live session, you will return to the online course to complete your CME/CE claiming.

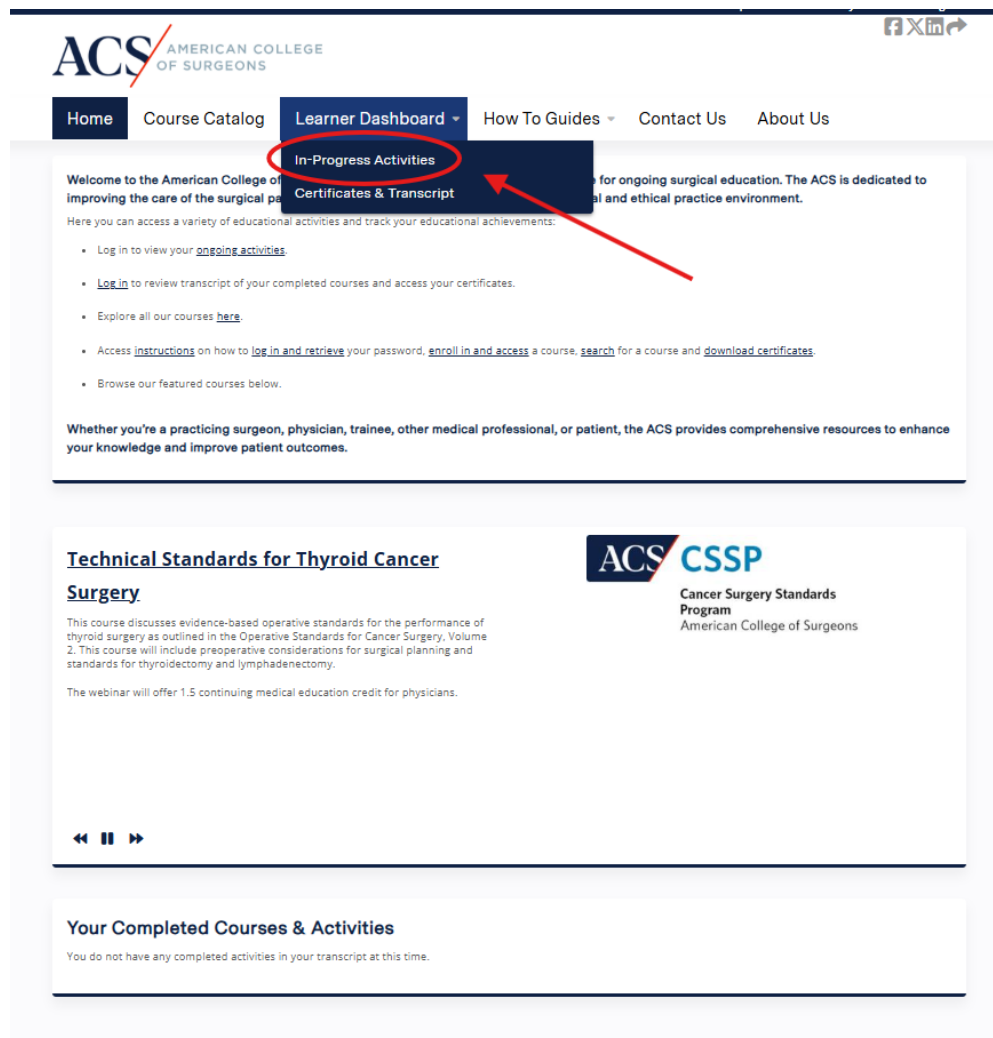

Instructions for accessing the online course activity/modules are included below.

Thank you for your support of ACS Trauma Education!

In this section, we will cover the steps for accessing the online course activity in the learning management system (<https://learning.facs.org>).

1. Using the username provided in the course enrollment email, login at <https://learning.facs.org>. To reset your password, use the forgot password function.
2. Once logged in, hover your cursor over the “Learner Dashboard” tab and then click on “In-Progress Activities”.

In-Progress Activities

Welcome to the American College of Surgeons. We are committed to providing ongoing surgical education. The ACS is dedicated to improving the care of the surgical patient and creating a safe and ethical practice environment.

Here you can access a variety of educational activities and track your educational achievements:

- Log in to view your [ongoing activities](#).
- Log in to review transcript of your completed courses and access your certificates.
- Explore all our courses [here](#).
- Access [instructions](#) on how to [log in and retrieve](#) your password, [enroll in and access](#) a course, [search](#) for a course and [download certificates](#).
- Browse our featured courses below.

Whether you're a practicing surgeon, physician, trainee, other medical professional, or patient, the ACS provides comprehensive resources to enhance your knowledge and improve patient outcomes.

Technical Standards for Thyroid Cancer Surgery

Surgery

This course discusses evidence-based operative standards for the performance of thyroid surgery as outlined in the Operative Standards for Cancer Surgery, Volume 2. This course will include preoperative considerations for surgical planning and standards for thyroidectomy and lymphadenectomy.

The webinar will offer 1.5 continuing medical education credit for physicians.

Title	Status	Enrolled date
ATLS 11 - Refresher 1 Day Course English (CME)	Instructions	

- This will open the course information page. Review the credit information by clicking on the "Accreditation" tab. Hardware/Software Requirements information will be available on the "Take course" tab. When ready, click on the "take course" button with the white arrow to proceed to the course activity.

The screenshot shows the ACS American College of Surgeons website. At the top is the ACS logo and navigation links: Home, Course Catalog, Learner Dashboard, How To Guides, Contact Us, and About Us. The breadcrumb trail reads "Home » ATLS 11 - Refresher 1 Day Course English ...". The main heading is "ATLS 11 - Refresher 1 Day Course English (CME)". Below this is a tabbed interface with "Overview", "Faculty", "Accreditation", and "Take course". The "Take course" tab is selected and highlighted with a red circle. Below the tabs, the "Take course" button is also circled in red. The page content under the "Take course" tab is titled "Hardware/Software Requirements" and includes sections for "Compatible Browsers" and "Required Browser Settings".
