The American College of Surgeons (ACS) and Association for Surgical Education (ASE) have collaborated to develop an exceptional new resource for medical school and clinical faculty: the ACS/ASE Medical Student Simulation-based Surgical Skills Curriculum. This joint program is available through the ACS Division of Education and can be accessed on the ACS website. It provides faculty with a national curriculum that offers medical students:

- Structured, uniform, and consistent learning experiences relating to the essential surgical skills needed by all physicians
- A solid foundation for further training

The simulation-based modules can be used to teach clinical skills ranging from taking a history and conducting a physical examination to performing basic surgical procedures. Topics are aligned with the year during which they are most commonly taught.
### YEAR 1
- **Module 1:** Abdominal Exam
- **Module 2:** Basic Vascular Exam
- **Module 3:** Breast Exam
- **Module 4:** Digital Rectal Exam
- **Module 5:** Female Pelvic Exam
- **Module 6:** Male Groin and Genital Exam
- **Module 7:** Universal Precautions
- **Module 8:** Venipuncture and Peripheral IV

### YEAR 2
- **Module 1:** Basic Airway Management
- **Module 2:** Communication—History and Physical and Case Presentation
- **Module 3:** Foley Bladder Catheterization
- **Module 4:** Intermediate Vascular Exam
- **Module 5:** Nasogastric Tubes
- **Module 6:** Sterile Technique—Gloving and Gowning
- **Module 7:** Surgical Drains—Care and Removal

### YEAR 3
- **Module 1:** Arterial Puncture and Blood Gas
- **Module 2:** Basic Knot Tying
- **Module 3:** Basic Suturing
- **Module 4:** Central Venous Line Insertion
- **Module 5:** Communication—During Codes and Safe and Effective Handoffs
- **Module 6:** Intermediate Airway
- **Module 7:** Intraosseous IV
- **Module 8:** Local Anesthetics
- **Module 9:** Paracentesis
- **Module 10:** Thoracentesis

**CONTENT INCLUDES:**
- ACS/ASE Medical Student Simulation-Based Surgical Skills Curriculum
TAKE ADVANTAGE OF THESE FEATURES

The curriculum modules are self-contained and can be used as free-standing learning activities or in a stepwise fashion as part of the entire curriculum. Modules can be implemented in a proctored small or large group setting, or individually.

Features include:

• Objectives, assumptions, and suggested readings
• Step-by-step descriptions of techniques, tasks, and procedures with images
• Discussion of common errors
• Expert performance videos
• Assessment tools for scoring student performance and providing feedback
• Descriptions of the simulation laboratory models, including suggested stations, supplies, and set-up

CONVENIENT AND EASY TO ACCESS

The 25 modules are available at facs.org/education/program/simulation-based.

Faculty and students can access the modules by creating a personal log-in and password.

For additional information, please contact Krashina Hudson at khudson@facs.org or 312-202-5335.
ACS/ASE MEDICAL STUDENT SIMULATION-BASED SURGICAL SKILLS CURRICULUM STEERING COMMITTEE

ORIGINAL CO-CHAIRS
DANIEL B. JONES, MD, FACS, AND KATHLEEN R. LISCUM, MD, FACS

CURRENT CO-CHAIRS
ROBERT D. ACTON, MD, FACS, AND ANDRE R. CAMPBELL, MD, FACS

ASSESSMENT EDITOR
CONNIE C. SCHMITZ, PHD

MEMBERS
LINDA M. BARNEY, MD, FACS
PATRICE GABLER BLAIR, MPH
ELLEN S. DEUTSCH, MD, FACS
AJIT K. SACHDEVA, MD, FACS, FRCSC
DANIEL J. SCOTT, MD, FACS
STEPHEN C. YANG, MD, FACS

ASSESSMENT CONSULTANTS
ADNAN ALSEIDI, MD, EDM, FACS
JULIA CORCORAN, MD, MHPE, FACS
MARC A. DE MOYA, MD, FACS
LORETTO GLYNN, MD, FACS, FAAP
MARY CATHERINE SANTOS, MD, MSED, FACS
